

BUSES-TO-CUBA SCHEDULE OFF

The East German freighter Magdeburg, with a cargo of 23 buses bound for Castro's Cuba, lies on its side in the Thames estuary near Tilbury, Essex, England, Tuesday. It was beached after colliding with the Japanese freighter Yamashiro Maru in the heavy fog. Half the buses went into the water.

## Callan Says Beermann Against Social Security

By DON WALTON  
Star Staff Writer

Democratic congressional nominee Clair Callan Tuesday released copies of a letter signed by Rep. Ralph Beermann which "proves that my opponent's votes against Social Security measures are based on the conviction that the Social Security system should be abolished."

In the letter dated March 26, 1963, Beermann wrote, in part:

"In short, while my political philosophy does not agree with the underlying principle of Social Security, it would be extremely foolish to deprive myself of it after I have paid for it since 1936."

"However, if a choice were given to me, I would still disagree with Social Security and would vote it out if given the chance."

The letter was written on Beermann's House stationery, and was signed "Ralph."

The name of the constituent to whom the letter was mailed was withheld upon request.

In a statement, Callan declared:

"This is irresponsible and represents a dangerous point of view shared by most of the radical right element in American politics."

"This position is in direct contradiction of the platforms of both the Republican and Democratic parties."

"In this congressional district alone, over 64,000 citizens depend on Social Security as the basis of their economic existence. Now, their congressman proposes to take this away from them."

"This completely irrational point of view would cause economic disaster for these people and turn social progress back 30 years."

Congressman Beermann said Tuesday night that he does "not want to take away Social Security, and that people certainly have the right to expect a return on what they have put into it."

People "who have paid money into the program certainly should get it back," Beermann said.

"I am for Social Security. I want to keep the fund strong enough that it will be solvent. I am against bankrupting it."

## 'McGovern All Wet On Beef; Defense Cut Talk Nonsense'

Sen. Roman Hruska Tuesday replied to Democratic criticism voiced in Nebraska Monday by "an influx of New Frontiersmen," namely Secretary of Commerce Luther H. Hodges and Sen. George McGovern.

McGovern, he said, is "all wet" in his contention that Hruska has exaggerated the effect of beef imports on the cattle market.

"Beef imports were the largest single contributing factor to the collapse of the cattle market," Hruska told a news conference.

Imports last year represented 11% of the total domestic production, the senator said.

McGovern's statements show that Nebraska "had better be on guard," Hruska said.

"The return to power of the Johnson administration means that it will disregard imports of beef as a harmful factor."

While Democrats talk about overproduction in the domestic cattle market, they support the Appalachian bill which would "add one million head of cattle per year to the domestic production," Hruska said.

How Come?

"Why didn't McGovern talk about that?"

If the economy is as good as Secretary Hodges indicated, Hruska asked, "why is there a poverty bill, and why is there still 5% unemployment?"

Hodges' statement that net income per farm in Nebraska

has increased is "actively misleading," Hruska charged, for it is the result of a heavy decrease in the number of farms.

Down 3% "Net farm income was reduced by 3% last year," he said.

McGovern's speech dealing with defense cuts was "nonsense," Hruska said.

Defense spending has increased during the Democratic administration despite "the

fact that we have stood still," the senator said. "We have developed no new strategic weapons systems... and we have no foreign policy."

Not Guilty

Republicans are not guilty of "negativism," Hruska said. "We believe in affirmative concepts," including reduced federal expenditures, reduced deficits, a firm foreign policy, morality in government and "getting government out of the farming business."

Goldwater asserts LBJ Wants Crown

London, Ky. (AP) — Republican presidential candidate Barry Goldwater stumped in the hills of Tennessee and Kentucky Tuesday before making a last effort to swing crucial Ohio to his side.

To thousands standing in autumn's Indian summer at airports in Bristol, Tenn., and here, the Arizona senator stepped up his tough-talking attacks on President Johnson.

He called Johnson the "most power-hungry man in American politics," and said the President didn't just want to be elected, "he wants to be crowned."

"He wants total trust, total love, total power, over your total lives," Goldwater declared, asserting someone should remind Johnson that "freedom is a gift of God and not from the government — no matter who runs it."

Bright, Crisp Day

A bright sun and a crisp fall lent a "come to a speaking" atmosphere to his day-time talks.

Whole night in Cleveland. Tuesday night in Cleveland, Goldwater said: "We have to chart a new course of peace and freedom," warning that

# DUO 'CAN'T LAST'

—ANSWER CITIZENS' GROUP—

## Commissioners Reaffirm Stand

... ON COURTHOUSE ISSUE

By NANCY RAY  
Star Staff Writer

Lancaster County's three commissioners took immediate issue Tuesday with statements in a circular issued by the Citizens' Movement and retaliated with a public commitment on their stand on the county courthouse and upcoming bond issue vote.

The commissioners stated: —That if the \$2.6 million bond issue for a county courthouse passes, the funds will be used exclusively to build a county courthouse and jail only at the 10th and J site, and nowhere else.

—That no part of the funds would be used for consolidation of city and county functions.

—That the maximum cost to taxpayers on a \$10,000 property would be between \$1.75 and \$2.62 per year for a maximum of 20 years, and probably would be less.

—That the location of the proposed courthouse is not on the ballot because it is illegal to place a location on a bond issue ballot, and not because the commissioners have any other site in mind.

The circulars, which spurred County Attorney Paul Douglas to ask for a public commitment from the county board members, urge a vote against the bond issue and state the project "will send our tax-burden soaring sky high."

The circulars also state that: "Until we have bonded assurance that this money will be used only to erect and furnish a courthouse for the county, that it will not be used for consolidation of county and city governments, that it will be located on 10th St., let us save our money."

Harm Chances

Douglas told county board members that "such erroneous information" could harm the chance for passage of the courthouse bond issue unless countered immediately.

Board Chairman William Grossman noted that the maximum estimates of the cost of repaying the bonds—principal and interest—has been figured at \$213,000, annually, which can be gained by a 1/2 to 3/4 mill levy on county real estate.

He noted that most probably that amount could be reduced to less than \$200,000 because the county is presently paying outside rental of around \$1,500 a month for its offices not housed in county-owned buildings. That tax money could be saved, he reasoned.

Covered

Commissioner Ralph Harlan related that "the southern half of Lancaster County has been thoroughly covered by persons distributing these (anti-courthouse) pamphlets."

He noted that in several cases, residents had come to him asking the source of the statements made by one circular that if the bond issue were passed, the commissioners would take the money and move their building project to the city-backed 15th and O site.

"We've got to answer such untrue statements," Harlan stressed.

The Citizens' Movement identifies itself on the pamphlet only by address — 636 No. 24th St., Lincoln—which is the residence of Winnifred Lewis.

Information

The pamphlet gives information on the special state, county and city issues to be balloted on and offers the following suggestions on voting:

Commissioner of Education: Vote 301 against.

County Courthouse: Vote against.

State Amendment 1: (Length of term): Vote against.

State Amendment 2 (Crippled veterans): Vote for.

State Amendments 3 & 4 (Classifying, taxing): Vote against.

State Amendments 5 & 6 (Realigning, regulating): Vote for.

Lincoln City Charter: Vote against.

General Election Ballot: Use own opinion.

The county board also issued a four-page statement giving its stand on all facets of the county courthouse bond issue, the joint building controversy and possible cooperation with the city.

(For partial text of the county board's statement see page 2.)

FALL IN FULL BLOSSOM

A milkweed pod softly spills out its seeds adding one more clue to the inevitable fact that fall is in full blossom and winter's visit to the midlands is fast approaching. (Staff Photo by Dick Cole.)

## President Points To Barry's 'Noes'

Pittsburgh (AP) — President Johnson cited Tuesday night issues on which he disagrees with Sen. Barry Goldwater and said, "We're wrapping them right around his neck."

Johnson said that while Goldwater talks about Bobby Baker, Walter Jenkins and Billy Sol Estes, he himself is talking about the issues he regards as important in the campaign.

The President said Goldwater protests that issues are not being drawn in this campaign; he added that the Republican nominee protests too much.

Jenkins Reference

The President, in an apparent indirect reference to Jenkins, his one-time key aide, said that with 3,000,000 government employees some of them are bound to make mistakes. When this occurs, he said, he calls for a resignation and an investigation to determine if there had been any violation of law.

Speaking at a Democratic rally, Johnson said Goldwater "has voted to cut out or cut down almost every program of common responsibility for anything."

Johnson said the Goldwater votes he has in mind range from national defense to education to Social Security.

Against, Against

Johnson said Goldwater voted against urban renewal, against low income housing, against area redevelopment, against aid to education.

The day's first stop was at Boston, a city which loved John F. Kennedy, and Johnson pledged at a Democratic rally there to follow the example of courage and judgment he credited to the assassinated president in the Cuban missile crisis.

Johnson said Kennedy's courage and determination then "brought a Communist withdrawal, and a memorable victory for the cause of freedom, and a turning point in the cold war."

Johnson all but predicted that 32-year-old Sen. Edward M. Kennedy, D-Mass., someday will be president.

He called the senator "one

of the most remarkable young men of our time."

"God spared his life and in due time, he will lead a lot more people than those of Massachusetts," the President said.

He told Pittsburgh partisans that Goldwater also voted against the Manpower Development and Training Act which, he said, has already helped 5,400 Pennsylvania workers "win their fight against machines."

Johnson said, "The opposition candidate voted against this year's tax cut which means \$1.8 billion in extra income for people in Pennsylvania—an average of \$442 per family."

'Against Ban'

"He voted against the nuclear bomb test ban agreement. We believe in making the world safer."

Johnson said the most serious issues have been drawn "in our votes and his."

In this connection he listed Goldwater as voting against the civil rights act, the mass transit bill, the wilderness bill, the anti-poverty bill.

"These are the issues," Johnson said.

British Guiana Vote

—Forthcoming elections in British Guiana do not necessarily mean that the country will become a communist satellite.

—Britain will continue to help Malaysia resist Indonesian aggression.

—Labor has "lots of understanding" of U.S. difficulties in South Viet Nam.

—The Cyprus crisis represents a "very intractable problem" but Britain has no plans to take "dramatic initiatives."

Israel Recognition Aim

Duesseldorf, Germany (AP) — The German trade unions federation has called on its more than six million members to sign a petition calling on the Bonn government to extend diplomatic recognition to Israel.

Today's Chuckle

## Briton Eyes Future

... TALKS END

Washington (AP)—The Soviet Union's new two-man leadership "is not likely to last very long," Patrick Gordon Walker, Britain's new foreign secretary, predicted Tuesday.

The pipe-smoking, quiet former Oxford history professor made this prediction at a news conference marking the end of two days of talks with American leaders.

The visit, the first contact between the new Labor government and the U.S. administration, was aimed at paving the way for a post-election meeting between President Johnson and Prime Minister Harold Wilson.

Sees President

Gordon Walker met with Johnson for 45 minutes, crowning two days of almost uninterrupted talks with Secretary of State Dean Rusk. He also met with Treasury Secretary Douglas Dillon and Defense Secretary Robert S. McNamara.

The talks embraced all major problems of the Western world, ranging from the British-requested reorganization of the Atlantic alliance to the expected effect of the dramatic changes in Moscow on East-West relations.

The shakeup in the Kremlin, Gordon Walker told newsmen, will not affect East-West relations, because the present relaxation of tensions is "based upon the fundamental interests" of the Soviet Union.

Khrushchev was succeeded by Leonid Brezhnev as first secretary of the Communist Party and by Alexei Kosygin as premier.

Impractical

Gordon Walker said he did not regard this as a practical arrangement.

Both he and Rusk termed their talks "extraordinarily valuable" when they emerged from Johnson's office at the White House.

"We are off to a fine start," Rusk added.

Commenting on Gordon Walker's news conference statements American officials said he explained the same views in his behind-closed-doors conferences with the President and his aides.

Positions

The issues and the British foreign secretary's positions included:

—On trade with Cuba, the Labor government shares the views of its predecessor and will continue to sell non-strategic goods to the Castro regime.

—British policy on Red China's admission to the United Nations also remains unchanged; the Peking regime should become a member.

—The British move imposing a levy on imports is a temporary one and its necessity was well-understood in Washington.

—Forthcoming elections in British Guiana do not necessarily mean that the country will become a communist satellite.

—Britain will continue to help Malaysia resist Indonesian aggression.

—Labor has "lots of understanding" of U.S. difficulties in South Viet Nam.

—The Cyprus crisis represents a "very intractable problem" but Britain has no plans to take "dramatic initiatives."

Israel Recognition Aim

Duesseldorf, Germany (AP) — The German trade unions federation has called on its more than six million members to sign a petition calling on the Bonn government to extend diplomatic recognition to Israel.

## Court Orders Student Registered As Voter

Action has been taken in Lancaster District Court to require Lancaster County Election Commissioner B. J. Holcomb to register a Union College student as a voter, following an unsuccessful attempt by the student to register to vote.

Judge Norris Chadderdon of Holdrege, acting as an equity judge in Lancaster District Court, issued an alternative writ of mandamus ordering Miss Holcomb to register Robert B. Leake of 4629 Stockwell as a voter.

Judge Chadderdon also set an 11 a.m. Wednesday hearing at which Miss Holcomb is ordered to show cause why she refused to allow Leake to register as a voter.

In his petition, Leake, 33, noted that he is married, has three children, and resides in

Lincoln. He said he is a student at Union College and intends to reside in Lincoln for the next 2 1/2 to three years.

Leake, in his petition, said that he had attempted to register to vote on Oct. 23, last Friday, the final day for registration in order to vote in the Nov. 3 election. He alleged that he was refused permission to register at the Lancaster County Election Commissioners office, but did not specify the cause for refusal.

Lincoln attorney Hal Hasselbalch will represent Leake at the Wednesday hearing. Hasselbalch said that Leake has been a resident of Lincoln for about 14 months.

Miss Holcomb, appointed to her post by the governor, is expected to be represented by a member of the state attorney general's staff.

## Full Story On K Ouster Demanded

Moscow (UPI) — Foreign Communist delegations are demanding the "full story" behind the ouster of Premier Nikita S. Khrushchev, eastern party sources said Tuesday.

But veteran Western observers said there was no chance he would be restored to power.

(In London, East European diplomats predicted further shifts in the Kremlin hierarchy, probably involving party chief theoretician Mikhail Suslov whose denunciation led to the ouster. They said his

action smacked of Stalin-like tactics.)

Communist sources said the delegations coming to Moscow have not accepted the Kremlin's explanations of Khrushchev's "retirement" and are demanding the full story in closed door sessions with Kremlin officials.

Brezhnev In Person

They said Leonid I. Brezhnev, who took the Soviet Communist Party leadership from Khrushchev 13 days ago, personally has taken control of the Kremlin effort to end the

discontent festering in the Communist world.

French, Danish, Indian and other delegations have met with "very polite" Soviet Communist Central Committee supporters of Brezhnev, the reports said.

The Italian delegation, representing the largest and most influential Communist Party in the West, arrived Tuesday night on a similar errand.

Other delegations are to follow in an outpouring of public discontent among the once docile foreign parties.

## Nine Die As Jet Bomber Hits Building

El Centro, Calif. (AP)—Nine persons were killed and at least 20 others injured—six critically—when a twin-jet Navy bomber crashed in flames at a Navy air field during a parachuting show.

The A3D attack bomber had just dropped the 25,000th man to parachute at the El Centro air facility. As the 'chutist floated down, the jet swooped low for a pass over hundreds of spectators.

As the 'chutist touched the ground not far away the A3D faltered, lost altitude, hit a power line, and broke apart in the air, hurling flaming wreckage and jet fuel across the center of the base.

The three occupants still in the plane died. So did five other men, most of them Navy personnel trapped in blazing buildings.

Johnston said the Goldwater votes he has in mind range from national defense to education to Social Security.

He called the senator "one

# Britain Warns So. Rhodesians

... AGAINST 'TREASON'

Salisbury, Southern Rhodesia (UPI)—Britain warned Tuesday that any attempt by Southern Rhodesia to declare itself independent would be "treason and rebellion" against the crown. Southern Rhodesia retaliated by accusing the British of "blackmail and intimidation."

The British also warned that this white-ruled African territory would be inviting economic disaster if it decided on a unilateral declaration of independence.

Such a declaration would be the first in British colonial history since 1776 when the

## U.N. Group Urges Talks

United Nations, N.Y. (AP)—The U.N. Special Committee on Colonialism proposed Tuesday night talks with the new British government on the "gravity of the situation" in Rhodesia.

The committee acted in response to fears voiced by the 32-nation African group that Rhodesia's white regime was on the verge of declaring independence.

The 24-member committee met after a caucus of the Africans nations at which they expressed alarm at the possible intentions of Rhodesian Prime Minister Ian Smith's white regime. A meeting of tribal chiefs convened by Smith's government Monday said it favored independence under white rule.

The committee on colonialism called the meeting of the chiefs a "sham."

## NU History Student Wins \$1,000 Grant

Milton O. Gustafson, University of Nebraska graduate student in history, has been awarded a \$1,000 grant-in-aid by the Harry S. Truman Library Institute.

The grant will be used by Gustafson to pursue research at several archives in America.

American colonies revolted against Britain's attempts to interfere in their internal affairs and declared their independence.

In London, the government announced it planned to call a roundtable constitution conference on Southern Rhodesia. It would invite Prime Minister Ian Smith to take part with jailed African nationalist leaders Joshua Nkomo and the Rev. Ndabaningi Sithole.

It was indicated that if Smith refused to attend or to allow the African leaders to take part, the British government would start its planned program of an economic squeeze on Southern Rhodesia.

Southern Rhodesians were stunned by the British warning, made by Prime Minister Harold Wilson in a letter to Smith. Crowds assembled outside the Southern Rhodesian parliament while Smith delivered an angry speech saying the British warning would serve only to unite his country.

He said British Commonwealth Secretary Arthur Bottomley, who returned to London Tuesday from Zambia independence celebrations, had refused to visit Salisbury for talks on the issue despite two personal appeals.

"Britain will regret this decision not to see me," Smith said.

In London, Bottomley said there will be economic sanctions against Rhodesia if it secedes. But he denied the British letter constituted an ultimatum.

The Southern Rhodesian government has scheduled a referendum Nov. 5 on the issue of unilateral declaration of independence.

"A declaration of independence," the British prime minister's letter said, "would be an open act of defiance and rebellion and it should be treasonable to take steps to give effect to it."

"The British government would be bound to sever relations with those responsible for such a declaration."

## OPINION DIVIDED IN THIS FAMILY

The L. B. Nixon family of Riverside, Calif., obviously has different opinions. Nixon, left, backs Sen. Barry Goldwater, Republican candidate for president. But his wife, right, goes for the Democratic hopeful, President Johnson. Their daughters—Lois, 10; Linda, 14; and Karen, 12, left to right—point to their very own choice.

# Cambodia May Join With North Viets

Saigon (UPI)—Cambodia announced Tuesday it had shot down the U.S. Air Force plane in which eight Americans were killed and wounded another. The third was missing.

The incident took place in a branch of the Rach Gia Canal, 150 miles west of Saigon.

The guerrillas opened fire on the Americans, who were unable to turn their assault boats around because the canal was too narrow.

'Border Post'

A Cambodian communique reporting the Saturday action in which, it said, several U.S. and South Vietnamese planes attacked a Cambodian border guard post stated: "Two of these planes were hit by Cambodian automatic arms. One of them, a twin-motored plane, crashed inside Cambodian territory. The second plane went down in South Vietnamese territory."

The undeclared border war between South Viet Nam and Cambodia appeared to be growing in intensity. Cambodia vowed to return "blow

for blow"—a threat which could find the South Vietnamese fighting Cambodians as well as the Viet Cong.

Cambodia and South Viet Nam broke diplomatic relations in August, 1963, following a series of border incidents. The Vietnamese accuse Cambodia of harboring and aiding the Viet Cong; Cambodia accuse the Vietnamese and Americans of violating the border in hot pursuit.

## Hoover Wished Barry Success

San Marino, Calif. (UPI)—Herbert Hoover Jr., son of the late president, Tuesday released the texts of a telegram and letter sent by his father to Sen. Barry M. Goldwater wishing the Republican presidential candidate success in his campaign.

Hoover said he was releasing the texts in response to many requests concerning the position taken by his father in regard to the forthcoming election. The elder Hoover died last week in New York.

The telegram, dated July 16, 1964, and sent to the senator after his nomination in San Francisco read:

"Congratulations on your nomination. My best wishes to you and our party for success in November. I know all loyal Republicans will unite behind you. Signed, Herbert Hoover."

Hoover's letter dated July 22 and sent to Goldwater in Washington, D.C., read:

"My dear Senator: Herbert (the son) has just left me and I gave him a message for you when you see him at your (Bohemian) Grove meeting next week.

"There is not much that I can do this campaign, but let me know through him of any service I can do and it will be done.

"I hope for your success as that means the success of our country. Signed, yours faithfully, Herbert Hoover."

# Commissioners Explain Courthouse Issue Stand

The Lancaster County Board of Commissioners Tuesday issued a statement explaining its stand on the county courthouse controversy and the issue of possible cooperation with the city.

The statement said: "The county commissioners have always been willing, and are still willing, to allow the construction of a joint building at 10th and J Sts. on land already owned by Lancaster County, provided that ownership by each government is in some way identified."

"Research conducted by the commissioners, the League of Women Voters, and other interested persons discloses that where governments jointly occupy a building and intermingling ownership exists, friction often arises."

"Lancaster County is willing to allow the City of Lincoln to construct its own City Hall, using city funds, on the two-block site at 10th and J."

## Should Remain Separate

"The county commissioners strongly believe that the county and city governments should, for the most part, remain separate. Some facilities of each may be economically combined, such as the taxing and assessing functions, but the commissioners do not desire to usurp the prerogatives of the City Council. Nor is a joint building necessary to combine such functions."

"Questions over what course the city intends to pursue should not be allowed to defeat the courthouse bond issue. The commissioners could not, in good conscience, approve the construction of a county building at any site other than 10th and J, for the many reasons we have just spelled out. Thus, there is no purpose in attempting to de-

feat the courthouse bond issue and thus compel a joint building at some other site.

"If the bond issue for the badly needed courthouse passes, the commissioners would be willing to wait a reasonable time before proceeding with construction of the courthouse, in order that the (city) council might get an expression of opinions from city voters as to whether they prefer a 10th and J site, or some other site."

"Plans for the courthouse could be made in such a manner that the site could accommodate two buildings."

"A vote for the courthouse now does not mean that all possibility of both city and county government at the same site is eliminated."

"The present (courthouse) building is over 75 years old, is crowded beyond imagination, is difficult to heat and cool, and requires constant repair and expensive maintenance."

Businessmen have long recognized the false economy of continuing to use a plant that is obsolete. This fact must be recognized by governmental bodies as well as by private enterprise."

## TV Tower Not Air Hazard—Court

Madison, Wis. (AP)—The Wisconsin Supreme Court ruled Tuesday that a 1,629-foot television tower near La Crosse does not constitute a hazard to normal air traffic.

Willard C. Pire and three other private pilots from Eau Claire appealed a lower court ruling approving construction of the tower, the tallest in Wisconsin. The tower is operated by WKBT-TV of La Crosse.

# Add 4 To Car Deaths

## Victims Die In Separate Mishaps

By The Associated Press  
Four Nebraskans died in traffic accidents during the night Monday.  
The victims were Leonard Bishop, 54, Hayes Center, killed in a one car accident eight miles west of Culbertson; Kenneth Kethcart, 43, Norfolk, killed in the upset of a 10-ton gravel loader; Francis D. Winder, 44, Key-stone, killed in a head-on crash a quarter mile south of Arthur on Nebraska 61; and Gerald C. Duncan, 68, Gandy, who died when his car went into a ditch and burned just east of Stapleton.  
The State Safety Patrol said Bishop lost his life when his car plowed into an embankment at a deadend where Nebraska 25 intersects with U.S. 6.  
Winder was the driver of a car which was in collision with one driven by Erle D. Corfield, 20, of Arthur.  
5 Hospitalized  
A passenger in the Corfield car, Lynn Kramer, 19, of Hyannis, was treated and released from a hospital. Corfield; Winder's wife, Dixie; and three Winder children, 15-year-old twins Carol Jean and Bernard, and Walter, 6, were hospitalized in Ogallala. Mrs. Winder was the most seriously hurt.  
Arthur Wiley of Stapleton, on his way to notify Stapleton relatives of Winder's death, discovered Duncan's burning in a roadside creek bed. The accident occurred at the junction of U.S. 83 and Nebraska 92.  
Nebraska's traffic death toll rose to 355 compared with 288 a year ago.

# Volker Receives \$300 Scholarship

For the third year in a row, a University of Nebraska student has received one of 15 national scholarships worth \$300 each, awarded by the Institute of Food Technologists.  
He is Kenneth L. Volker, son of Mr. and Mrs. L. a wrence Volker.  
Volker had a superior scholastic record at Johnson High School, where he also was active in sports.  
A freshman at the College of Agriculture and Home Economics, he plans a career in dairy science, an area of food technology, according to Dr. Burt Maxey, NU dairy department staff member.

# Hastings Given Clearance To Appeal Order

The way has been cleared for the city of Hastings to appeal to the state Supreme Court a recent order of the Nebraska Court of Industrial Relations involving a labor dispute.  
The Industrial Relations Court reported Tuesday it has denied the request of Hastings for a hearing on the court's order requiring the city and its public works department to deal with a union local over a dispute involving wages, retirement pay and fringe benefits.  
The city has said it would appeal the case to the state Supreme Court if it was denied a rehearing before the labor court.  
The court issued the order Oct. 8 and gave the city and the local until Jan. 5 of next year to define or eliminate their differences.

# Doctors Report Cunningham Suffering From Hypoglycemia

Omaha (UPI) — Rep. Glenn Cunningham, R-Neb., was advised by two doctors Tuesday that he is suffering from a condition known as hypoglycemia which can "give rise to symptoms such as you displayed on two recent occasions."  
The condition, the doctors said, results in a sudden drop from a normal blood sugar to an abnormally low level.  
The condition, they said, is "benign in nature. It recurs intermittently and could be a precursor of diabetes mellitus."  
The doctors said "strict adherence to normal timing of meals and a well-balanced diet should be the answer to your problem."  
Signing the report were Drs. J. D. McCarthy and John A. Aita.  
Last week, Sam Cooper, Douglas County Democratic chairman, demanded that Cunningham, who is seeking his fifth consecutive term in Congress, withdraw from the race because of the manner in which the congressman acted at the dedication of the new Omaha post office.  
Cooper said Cunningham's performance was disgraceful and that it appeared that the congressman had been drinking.  
However, later in the day Robert Hasebrook, Douglas County Republican chairman, said two doctors had advised him that Cunningham's condition was in no way connected with drinking.  
Cooper, contacted for comment after the physicians' statement was released, said he "would have to look into it." He said the doctors' statement has "thrown some words at me that nobody understands but doctors."  
Cooper said the Democrats had given Cunningham and his campaign managers "a chance" earlier to explain the congressman's health and they said he was "perfectly well." Cooper said Cunningham's forces "even challenged us to a physical examination."  
Cunningham, former Omaha mayor, is opposed in the Nov. 3 election day by Richard Swenson, an Omaha attorney and former president of the Omaha School Board.  
Robert Cunningham, brother of the congressman, and Mrs. Janis Cunningham, the congressman's wife, met with newsmen in the living room of the congressman's home, where the doctors' report was released.  
Robert Cunningham, responding to a question from United Press International, said "drinking was absolutely not involved in either of the instances where Cunningham became ill in public."  
Robert Cunningham said the

# Demos Asked To Retract Charges

Republican State Chairman Walter Witthoff of Fremont Tuesday asked Gov. Frank Morrison to repudiate Democratic charges against Republican Glenn Cunningham.  
Witthoff noted that Morrison has "issued pious and sanctimonious statements in regard to hate and smear campaign tactics."  
If the governor is going to be "completely honest with Nebraska voters, as he professes to be, he will repudiate and ask his fellow Democrats who have made the dishonest, indecent, scurrilous and untrue statements to retract such statements concerning Congressman Cunningham," Witthoff said.  
Witthoff also called upon Morrison to retract attacks upon Sen. Roman Hruska and Sen. Carl Curtis.  
"Unless Governor Morrison repudiates and retracts the statements and accusations made by him and his fellow Democrats, he is guilty of the greatest political hypocrisy the state of Nebraska has ever witnessed," Witthoff declared.

# Freight Rate Drop Hikes Wheat Props

The state Agricultural Stabilization and Conservation Service (ASCS) Tuesday announced revised county-by-county price support rates on wheat in Nebraska this year.  
The rates range from \$1.21 to \$1.40 per bushel, with the lower rates applying generally in western counties, and the higher rates applying in the east. The top \$1.40 per bushel rate was listed for Butler, Lancaster, Cass and Otoe counties.  
The rates as previously announced had ranged from \$1.15 to \$1.35 per bushel.  
A reduction in freight rates led to the upward revision, the ASCS said.  
The county by county run-down:

- \$1.21—Sioux, Banner, Kimball.
- \$1.22—Scotts Bluff, Dawes, Cheyenne.
- \$1.24—Morrill, Sheridan, Deuel.
- \$1.25—Box Butte, Garden.
- \$1.26—Grant, Arthur, Keith, Perkins, Chase, Dundy.
- \$1.27—Hayes.
- \$1.28—Cherry, Hooker, Hitchcock.
- \$1.29—Lincoln.
- \$1.30—Thomas, McPherson, Logan, Frontier, Red Willow, Blaine, Brown, Keyapaha.
- \$1.31—Rock, Furnas.
- \$1.32—Harrison, Gosper, Custer.
- \$1.33—Pheasant, Franklin, Loup, Boyd, Kearney, Dawson.
- \$1.34—Webster, Valley, Garfield, Holt, Knox, Antelope, Wayne, Stanton, Cumma.
- \$1.35—Buttler, Sherman, Adams, Suckolls, Clay, Wheeler, Cedar, Dixon, Pierce.
- \$1.36—Greeley, Howard, Hall, Madison, Dakota, Thurston, Washington.
- \$1.37—Thayer, Jefferson, Fillmore, Hamilton, Morrill, Boone.
- \$1.38—York, Nance, Dodge, Burt, Pawnee, Richardson.
- \$1.39—Saline, Gage, Seward, Polk, Platte, Douglas, Johnson, Nemaha, Saunders.
- \$1.40—Lancaster, Cass, Otoe, Sarpy, Colfax, Butler.

# Burlington To Receive 3,400 Boxcars Under ICC Orders

By GLENN KREUSCHER  
Farm Editor  
Relief for the midwestern boxcar shortage was promised Tuesday as the Interstate Commerce Commission issued an unprecedented peacetime order instructing eastern and southeastern railroads to supply a set number of cars a day through November 15 to the Burlington and Santa Fe Railroads, and several other rail lines.  
The order which particularly affects the Burlington will return near 3,400 cars during the length of the order.  
Railroads instructed to return boxcars to the Burlington and their daily quota include: New York Central, 40;

# Peru To Buy Power From Auburn Only

The Peru City Council confirmed Tuesday it seeks to buy outside electrical power from the city of Auburn and no one else.  
In an official resolution presented the State Power Review Board by Mayor John J. McIntire, the council said such an arrangement would be in the "best interests of Peru."  
Review board chairman William C. Norton of Osceola last week asked McIntire to present formal proof that the entire city council favored buying supplemental power from Auburn.  
Auburn and the Eastern Nebraska Public Power District have both applied to serve Peru.  
McIntire presented the council resolution as the board resumed the hearing on the matter. A final order and decision is expected next month.

Signs Agreement  
Peru residents voted earlier this year to discontinue their town's electric generating plant and buy wholesale power from some supplier.  
In August it signed an agreement with Auburn calling for Auburn to provide wholesale power for five years for 1.26 cents per kilowatt hour and Peru would in turn sell it to Peru State College for 1.90 cents per kilowatt hour.  
The Eastern District contends it can serve the load more efficiently and at a lower general cost.  
McIntire said an emergency exists in that the present capacity of Peru's generating plant is inadequate to meet the needs of both the community and Peru State College. He urged the board to decide the case in a hurry.

# Fremont Woman Hurt In Lincoln Accident

Linda Launer, 21, of Fremont was in fairly good condition at St. Elizabeth Hospital early Wednesday morning after a two-car collision at 11th and Cornhusker, hospital officials said.  
The accident occurred Tuesday evening.

# Pair Die In House Blast; Two Injured

North Platte — Four young men were burned, two of them fatally, when a small house burned Monday night.  
The dead were Merlin Weber, 30, and John Fisher, 23, both of North Platte.  
Robert Perkins, 18, was in critical condition with burns over his entire body and Danny Silo, 19, was in serious condition in a North Platte hospital Tuesday.  
Perkins said the four were attending a birthday party at his sister's home when they saw flames inside the unoccupied three-room house nearby.  
He said they went to the house and as they entered an explosion engulfed them in flames.  
The interior of the masonry house was burned out. Fire Chief Les Mills and Sheriff Gordon Gilster were investigating cause of the blaze and explosion Tuesday.

# J. M. Harding, 77, Dies; President OPD Since '46

Omaha (UPI)—J. M. Harding, president of the Omaha Public Power District, died at 10 a.m. Tuesday in St. Joseph Hospital following surgery.  
Gov. Frank Morrison must now appoint a new district director. The board will then elect a new president. No date has been set.  
Mr. Harding, 77, was president of the district since its formation in 1946. He was a well known business and civic leader here for much of his life.  
Funeral arrangements are pending.  
Survivors include a sister, seven children, 18 grandchildren, and four great grandchildren.

# Tractor Mishap Injuries Fatal For Elgin Man

Elgin — Funeral services will be held Wednesday for Joseph Eischeid, 54, Elgin farmer, who was injured in a tractor accident on Oct. 9.  
Mr. Eischeid died in a Ne-ligh hospital Monday.  
The farmer, his son David and a friend, Jim Josten, were riding on the tractor counting bales of alfalfa in a field when the vehicle struck a bale and threw the three to the ground. Young Eischeid and Josten were unhurt.

# Royalty Crowned

Broken Bow — Judy Estes, daughter of Mr. and Mrs. Charles Estes of Anselmo, and Dale Esterdard, son of Edwin Esterdard of Oconto, were crowned 1964 Custer County 4-H queen and king at the annual 4-H achievement night event.

# Pure Wool Suits... With Permanently Creased Trousers

Why is Magee's so interested in wool? Because of the fashion correctness of wool... its year-round comfort... natural resilience... long life... and talent for travel. Many of Magee's famous makers of men's suits share this high regard for the natural qualities of pure wool. Some employ a unique new process which imparts a permanent crease to wool trousers and slacks. Magee's comprehensive suit collection includes 2 and 3 button styles with permanently creased trousers, in all the new fall patterns and colors. \$59.50 to \$150.

## Things Known And Unknown

By WILLIAM O. DÖBLER

So many things are happening these days that the average citizen is hard put to having a working knowledge of all of them. Take, for instance, the matter of interest rates on which the voters will decide at the coming Nov. 3 general election. All things considered, approval of this amendment to the state constitution would be in order but the issue is full of many uncertainties.

The amendment would place with the Legislature authority to regulate interest rates according to classes or types of loans or credit. Voters, however, have no guarantee that if the amendment is adopted, the Legislature would not approve excessively high interest rates. One saving factor and moderating influence would be the very great attention that will be focused at this time on what the senators do. The interest rate bill that would follow approval of the constitutional change would be closely watched and widely reported because the subject has been such a hot issue for so long now.

There is little danger of anything slipping through unnoticed and this is an important consideration. Still, this safeguard is not a guarantee of anything. Very disturbing at this time is the campaign being waged by credit industry interests in favor of the constitutional change. This campaign is presenting voters with a choice of the constitutional change or no credit whatsoever.

This is nothing more than an out-and-out untruth and should be understood as such. We will grant that credit would be tightened and the economy of this state hurt if the amendment were defeated and credit of all kinds forced to operate within the existing legal 9 percent usury rate. But all credit would not be eliminated.

At worst, credit would be denied to the poorer risks among the buying public. But this, too, would be mitigated to some extent by the fact that retailers would load some of the costs of doing credit onto the price of their goods. This would be a penalty, in effect, to those who pay cash but somebody is going to be paying the penalty of bad credit risks, in any event. If too high interest rates encourage bad risks, then the other credit buyers are the ones picking up the tab for their less responsible brethren. But to think that all credit would cease if the proposed amendment is defeated is simply ridiculous and a poor reflection upon those in the credit industry who are responsible for this kind of campaigning.

This is to say nothing of the fact that the 9 percent usury rate could well be

changed. It is still believed that a usury rate adequate for all purposes could not be pushed through the Legislature. But a usury rate of, say, 12 or possibly 16 percent might not be an impossibility at all. This would not solve the credit problems but it would help and would be further assurance that credit was not going to disappear from the Nebraska scene overnight. This propaganda of credit's completely disappearing is a threat that has no place in an honest and sincere approach to the financial problem the state faces in this area of its operations. It does nothing for those who hopefully look for the day when business and industry are unfettered by unfair rates while the general public, at the same time, is protected from abusive money-lending practices of all kinds.

Another confusing situation for the public has to do with tax valuations in Lincoln and Lancaster County. Notice was made here recently of the talk between city and county officials on the subject of a consolidated approach to taxation. The idea is that the city and county use a single tax-assessing procedure as well as billing and collection procedures.

It was noted that one problem or stumbling block is the difference that currently exists as to city and county taxes. A shift at this time by the city to use of county valuations would result in an approximate 10 percent average increase to residential property owners because the city valuations are lower on residential and higher on business than are the county's.

This remains as a problem but it would not serve as any final block to consolidation of valuations.

This consolidation is mandatory under terms of legislation passed by the Unicameral in 1963. Within about five years, taxpayers can expect a single city and county valuation and they can do hardly anything about it now. But such valuation will not be the same as it is today. The combined valuation now mandatory upon the city and county will be a valuation arrived at by a completely new assessment of all property within the city and county. It is possible that this reassessment will soften the valuation increase for residential property that would now seem assured.

Thus, taxpayers actually have little recourse left to them in the matter of a single city and county valuation because this end has been assured by state law. But exactly what that single valuation will be is still a matter of conjecture and a knot that will have to be untied before an agreeable end is reached on this subject.

There is good reason to believe that he will carry all of New England, including the rock-ribbed Republican states of Maine and Vermont, which Roosevelt failed to carry in 1936; and that he will even carry Mississippi.

Furthermore, the tier of Midwest farm-belt states, extending from North Dakota down through Oklahoma and including Kansas, is likely to go for Johnson. North and South Dakota and Kansas haven't gone for a Democratic president since 1936.

The state of Arizona, home of one Barry Goldwater, seems likely to desert him. If this estimate is anywhere near correct, it will be despite one of the filthiest series of smears launched against any president, on a mass basis. It will also be despite a second scandal

ing agency. Enforcement comes under the jurisdiction of local police and sheriffs.

But who is to enforce state law in many matters relating to the protection of the general public? In addition to the petition and referendum issue, we not long ago were troubled with enforcement of law against lobbyists. Nobody seems to care about enforcement of law in the area of filing of campaign expenses, either.

It would seem incumbent upon the Legislature at its coming session to give some thought to this matter and see if it would not be pertinent to expand the responsibilities of the state attorney general to include some kind of watchdog activity over state laws aimed at protection of the general public. Perhaps the attorney general should not be charged with broad enforcement responsibilities but surely could be directed to recommend actions on the part of county attorneys and local law enforcement agencies.

The expressed duties of the office of state attorney general imply that this executive branch of government is basically a legal service for the rest of state government, not an enforcement agency. The county attorney in every county is a prosecuting agency but, also, not exactly an enforcement agency.

The courts have knocked the petitions out as invalid and there remains a question as to falsified oaths on the part of those who helped circulate the petitions. Regardless of how this matter turns out, it would seem that we are hazy in regard to who should be enforcing state law in a great number of areas.

The expressed duties of the office of state attorney general imply that this executive branch of government is basically a legal service for the rest of state government, not an enforcement agency. The county attorney in every county is a prosecuting agency but, also, not exactly an enforcement agency.

"Dear President Johnson: Providing Nothing Unforeseen Occurs, I Would Still Like Very Much To Visit Disneyland. Perhaps..."

DREW PEARSON

Pearson Foresees

L.B.J. Landslide

EDITOR'S NOTE — Drew Pearson has been on a political survey of various parts of the United States, today reports on his net findings.

EN ROUTE — One week hence, the American public will know the final results of one of the bitterest, most below-the-belt presidential campaigns in history.

As I read the polls and the political opinions expressed both privately and publicly in various areas, ranging from North Dakota to Florida, Lyndon B. Johnson will be elected by one of the heaviest margins in history.

There is good reason to believe that he will carry all of New England, including the rock-ribbed Republican states of Maine and Vermont, which Roosevelt failed to carry in 1936; and that he will even carry Mississippi.

Furthermore, the tier of Midwest farm-belt states, extending from North Dakota down through Oklahoma and including Kansas, is likely to go for Johnson. North and South Dakota and Kansas haven't gone for a Democratic president since 1936.

The state of Arizona, home of one Barry Goldwater, seems likely to desert him.

If this estimate is anywhere near correct, it will be despite one of the filthiest series of smears launched against any president, on a mass basis. It will also be despite a second scandal

charge which the Republicans are reported set to launch.

Early in this campaign, the Johnson strategy board discussed the question of a Senate investigation of the vast accumulation of big-business gifts to the Eisenhower farm, especially the cash expenses given by three oil men to pay the farm's management and operation costs. It was known that the Republicans were set to pound home the hi-fi set which Johnson received from Bobby Baker in 1957, and some argued that this should be offset by a probe of the half-million dollars worth of gifts received by Eisenhower.

But the decision was negative. The reason was: "Let's not pull down the prestige of the presidency." Goldwater's strategists were not so charitable. Not only have three smear books against Johnson flooded the country to the extent of over 9,000,000 copies, but there have been systematic drives to saturate different voting communities with "Liberty Lobby" propaganda.

Town by town, the Liberty Lobby's "LBJ, A Political Biography" has been distributed on a house-to-house basis, with readers not knowing what is behind this right-wing lobby; or that this column just won a big libel suit brought by Curtis Dall of the Liberty Lobby. The right wing in this case was knocked right out of court.

## Democrats Eye Southern Future

WASHINGTON — About all that Democrats are trying to do in the closing days of the campaign is to be nice to the customers. A close watch is being kept on Sen. Barry Goldwater and Richard Nixon just as insurance against last-minute surprises. It is believed that Rep. William Miller, the candidate for vice-president selected by Goldwater because "he drives a Lyndon crazy," has been completely marked down by the public and is not a problem.

Democrats are frankly awed by the apparent range of their support this year. They realize it will create problems after the election when programs must be sent to Congress, but they are not quarreling with White House emphasis on the one big, happy family aspect of the campaign.

They expect that it will insure the same or bigger majorities in the next Congress. Republicans hardly argue the prospect. Several notable Republican vote-getters who still say they will win add the proviso that a possible Johnson landslide will upset their calculations.

President Johnson's final zealous efforts to carry the South are being widely interpreted as an effort to prove that everybody loves Lyndon at least as much as they distrust Goldwater. It is true that the President's pride is touched by the general feeling that Goldwater is the issue and that it is the senator's critics who are winning the election for Johnson.

But there is much more to it than that. Even the most glowing accounts of Goldwater prospects do not suggest that Southern chairmen of standing congressional committees or their dominant Southern membership will lose seats this fall.

The President perceives that it is important to lead this group from a position of strength, particularly as the South is in a period of transition from long-held beliefs and a way of life. He not only wants Southern votes in the sessions of Congress immediately ahead; he wants to help shape the Southern transition.

Time is on his side if he can get past the November 3 Goldwater hurdle. The congressional committee chairmen are getting older; for example, Harry Byrd of Virginia is 77; A. Willis Robertson of Virginia is 78, Allen Ellender of Louisiana is 74, and John McClellan of Arkansas is 68.

## Your Five Cents Worth

Brevity to letters is requested but length in itself will have no bearing on publication. Writers are advised that news, less details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials at the editors' discretion.

### Farmer's Importance

Avoca, Neb.  
In regard to "Beermann Supporter's" letter of October 21, he stated that "if God had wanted farmers to use tractors, He would have created farmers with tractors attached to them."

Now, if he stopped and thought about this, where does he think this world would be if that was the case for every human being? For instance, why does he think there are doctors in this world? Wouldn't God have created them with built-in scalpels and what-not if He had wanted them to be doctors? Why do we have cars to drive, television sets, airplanes, electricity or anything else in this world unless God wanted us to have them? Why does "Beermann Supporter" think God gave man the ability and power of reasoning to make these things? So that we can sit around and waste these God-given gifts by not bettering ourselves? If we did this, we'd still be living in the cave-man days!

And why shouldn't the farmer try to advance himself? He, too, is human, along with everyone else. If he didn't have "tractors, combines and unnatural fertilizers" to work with, how would he meet the demands of food needed to feed all of these people?

It seems to me that a lot of people are forgetting that if it weren't for the farmer's raising cattle, hogs, chickens, etc., and if it weren't for the farmer and his crops, THEY wouldn't be eating so good!

LINDA SCHUTZ

### The Backers

Lincoln, Neb.  
Thanks to The Star for the article of October 19 about the extremist publications. Exposure is important. Too many people who read these publications believe the untruths and half-truths simply because they see them in print. They don't realize the so-called documentation consists of meaningless references to the pages on which the statements were first printed.

The frightening thing about this election is not Goldwater himself, inept as he may be, but some of the people behind him. When a candidate is elected, he cannot throw off those who put him into power, even if he wants to.

I can still hear the booing and see the angry and sullen faces shown by the television cameras as he tried to speak. The polls and primaries, with the exception of the primary in California (a hotbed of extremist movements), showed Goldwater not to be the choice of the majority of Republicans. But to his extremist backers, those with differing opinions have no rights even if they be a majority.

Buried deep in one of the stories about the extremist publications is the statement that Gerald L. K. Smith's leaflet said: "As the organization developed, I observed the men and women who had been my lifetime friends were in the Goldwater organization and some of them were very close to the top."

It is to be hoped that anyone planning to vote for Goldwater knows who Gerald L. K. Smith is and what he stands for.

MRS. WILLARD B. COWLES

### Chooses Barry

Lincoln, Neb.  
Drew Pearson recently stated that the pro-Western members of K's staff have been removed. Does Mr. Pearson honestly believe that these men were pro-Western?

He said the Russians did not speak against us during our recent trouble in Panama. If I remember correctly, Mr. K. told us to get out of Panama or get kicked out! It seems to me that Mr. Pearson is one of the "too many" moderates who feel we have no problem concerning the communist threat.

It also seems to me that the British took this same stand concerning Hitler before being hoodwinked. Americans must keep in mind that no one can any longer enter a major war and be the victors, so we must take the offensive in our foreign affairs now. Any one who has followed the news very closely for the past few years knows that we are being eaten away by the communist cancer. We won't have many more chances to stop it.

The present administration would save its own neck and sell us down the river, if it

comes to that. It has shown how it can double-talk the citizenry. I'll take my chances with Mr. Goldwater because if the before-mentioned cancer ever hits, he would be true to the American people.

E. L. SHELTON

### Stones Flying

Lincoln, Neb.  
The Bible says, "Let he who is without sin cast the first stone." The Republican candidates, Goldwater and Miller, have been casting stones at Johnson, implying he is godless, immoral, corrupt and greedy. It is incumbent upon us to examine the Republicans' record to see if they are indeed free from the sins of which they accuse the opposition.

Goldwater's former campaign manager, Shadegg, has written in a recently published book that the senator got elected by making a false charge about his opponent. Other advisers said, retract the charge. Shadegg said, do not. The senator won the election.

As for Rep. Miller, he was on the payroll of a private company while serving as a congressman. Could he really be said to represent all the people of his district by being paid from a private company? Perhaps the \$7,500 a year he received was a gift? If so, why is he against other people's also receiving gifts? Will he continue to receive his \$7,500 a year as vice president, or will his bosses see fit to give him an increase in pay commensurate with his more important position?

Both Goldwater and Miller have said that moral decay starts from the top and spreads down. Do we want these two at the top?

WONDERING

### Winner Takes All

Wauneta, Neb.  
I was delighted with your editorial of October 23, "What You Don't Know..." Your discussion was excellent. It reminded me of what our late Senator George W. Norris almost accomplished just before World War II in amending our electoral college procedure.

I think that I am correctly informed that the senator had secured agreement for an amendment to our Constitution whereby the electoral vote of each state would be divided among the presidential candidates on a percentage basis according to the actual vote for each candidate. World War II interfered with its passage and no more has come of it.

If such an amendment could be passed, I think it would be the best incentive for getting out the vote up to now. Every voter would then know that his vote would count in the national ballot. Now, in the electoral college, winners take all and losers get nothing. Moreover, such pro-rating of state electoral votes would almost insure that the elected candidate would be the possessor of the majority popular vote.

JAY A. PERSON

### The People's Right

Peru, Neb.  
T. J. Thompson's opinion that the "many shortcomings and abuses" arising from the election of public officials by the direct vote of the people can be cured by making the offices appointive (state commissioner of education) is like advising decapitation as a cure for headache.

Millions of people in totalitarian countries would be glad to trade their problems for the "shortcomings and abuses" arising from the

right to vote directly on public office holders.

Liberty is not painless. Last November the President of the greatest nation in the world was removed, violently and without warning, by death. Numb with shock, heartbroken people continued to do the work necessary to a free nation.

I think the State Department of Education is capable of dealing with the shortcomings necessary to a free school system. Given back their right to vote, the people will take care of the abuses in the polling booth.

IVAN NEWTON

### UNICEF

Fremont, Neb.  
Before citizens participate in any way in the UNICEF drive for funds at Halloween, they should give grave consideration to the following information.

In February, 1962, Congressman H. R. Gross (Ia.), in answer to a letter written to him regarding the use of UNICEF funds by the United Nations, wrote: "In response to your inquiry, I can tell you that money most assuredly was taken from the Children's Fund (UNICEF) to finance the United Nations Congo operation."

Congressman Gross then called attention to information placed in the June 19, 1961, Congressional Record (pg. 9932) which reveals that State Department witnesses "provided a statement showing that United Nations officials got \$12 million from the United Nations Special Fund and grabbed \$10 million from the United Nations Children's Fund, UNICEF," both for use in the Congo operation.

It appears to me that the children are being exploited at both ends of this operation.

MOTHER

### Wings?

Scotia, Neb.  
The Goldwater philosophy is to abide by the Constitution, although he upholds prayer in schools, which is unconstitutional as a church and state are separate. He blasted away about prayer in schools, appealing to the church people for votes. I presume, and got good applause. Shortly after, he admonished parents about evading income taxes, as the youngsters would say, "If they can do it, so can we." No applause.

I thought I detected wings sprouting on Mr. Goldwater during his tirade. But in his half-hour blast, he said nothing constructive. He advocated individualism, which means the weak against the strong, the rich against the poor and, in short, the survival of the fittest.

The tactics the GOP uses are sickening, but even amusing. I can't believe the voters will hand over the reins to the likes of Barry Goldwater.

L. A. GOOCHEY

### Eyes Wide Open

Lincoln, Neb.  
There is only one clearcut decision to be made when we vote for governor. Do we want to be tied to Washington, D.C., or do we want to be true Nebraskans, able and willing to stand on our own feet?

A vote for Morrison is a vote for more Washington dictatorship. A vote for Burney is a vote for a Nebraska statesman. Let's forget the sales tax. Neither candidate, if elected, decides that issue. It's a legislative matter.

I'm a dumb Republican who voted wrong two years ago, but I've got my eyes open now. I'm for Dwight Burney.

School Board OKs New Administrative Setup

By VIRGIL FALLOON  
Star Staff Writer

The Board of Education Tuesday approved a new administrative alignment under Supt. Steven Watkins that had been under development for six months.

Board Chairman James Stuart said the new administrative setup is in line with the growth of the Lincoln school system with a current enrollment of nearly 30,000 students.

Plugs Gaps

"It plugs up the gaps where we have been weak, he said.

"It is my hope that the greater efficiency will not only pay for the additional salaries but will save money in the long run."

Dr. Watkins said "some significant savings" have already been realized under the new purchasing department

Knight Hits Fact Distortion About No. 6

Legislative candidate John E. Knight of Lincoln said Tuesday that "attention should be called to the distortion of facts in the advertisements appearing in favor of Amendment Number 6"

which would allow the Legislature to enact special interest rate legislation.

"To vote against this amendment does not mean that you must pay cash for everything. To vote against

this amendment does not mean that there will be no installment credit lines available," Knight declared.

The 26th District candidate said that a vote for the amendment "will place interest rates for installment purchasing in the hands of the Legislature."

"Present tactics of the credit industry give one cause for wondering if good legislation can come out of distortion of facts and undue pressures."

"Present tactics suggest an unwholesome development in this troublesome area of legislation," Knight concluded.

DUANE FLEMING GETS TERM FOR LARCENY FROM PERSON

Duane D. Fleming, 19, of 2311 Vine, was sentenced to a term of from one to three years in the Nebraska Penal Complex after pleading guilty to charges of larceny from a person.

Fleming was originally charged with robbery involving a July 14 incident at the Trax Oil Co. station, 20th and O, and taking money by force from Charles T. Herrington, station attendant. The complaint was amended to larceny from person.

CB&Q Conductor Is Honored For 50 Years Service

August B. Sanford of 4410 Meredith, Lincoln, veteran conductor for the Burlington Railroad was honored, for 50 years of service with the company.

Sanford received a gold, 50-year lapel emblem, a personal letter of commendation from president Harry C. Murphy, and lifetime passes for himself and wife, Agnes. The awards were presented by Walter S. Johnston, superintendent at Lincoln.

Strom Will Offer Plan Of Pensions As Tax Exempt

Russell R. Strom, legislative candidate from the 29th District, said Tuesday if elected he will propose legislation to exempt pension plans from taxation.

"This would follow passage of Constitutional Amendment 3 which is on the November ballot," Strom said.

"My interpretation of Amendment 3 is that it would authorize the Legislature to reduce or exempt pension plans from taxation."

"The current tax now drives large pension funds out of Nebraska and reduces the amount of money that goes to members of pension plans that remain in Nebraska."

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath." Get FASTEETH at drug counters everywhere.

Franson Pledges Work To Prevent Highway Deaths

Joseph Franson, legislative candidate from the 25th District, said Tuesday that if he is elected he will work for action in preventing deaths and injuries on Nebraska highways.

Franson called for more State Safety Patrolmen, higher pay for troopers, stricter regulation of the irresponsible driver, a crackdown on drunken driving, expansion of driver training and rural road improvement.

"We need to spend a lot of time and effort in the rural areas in widening roads, clearing blind intersections and removing the top of some of the hills so that we will not have these terrible head-on collisions on hilltops," Franson said.

Growth Research Only 1% Done?

Republican gubernatorial nominee Dwight Burney Tuesday asked Gov. Frank Morrison to confirm or deny reports that only about one per cent of the research on the Nebraska growth stimulator is now complete.

Burney said he has received reports that an official of the W. R. Grace Co., has said that research presently completed is about one per cent of the research the Grace Co. must do to determine commercial feasibility of the product.

Don't spend millions for land and parking tickets. Vote for the Lancaster County Court House Bond Issue.

A Taxpayer.

headed by Purchasing Director Robert George.

Dr. Arzell Ball was named vice superintendent of schools in the new organization sharing over-all administrative duties with Dr. Watkins.

The next echelon of supervision is headed by Dr. Reed Schaefer, assistant superintendent for business affairs; Dr. R. L. Fredstrom, assistant superintendent of instruction, and Rudy J. Bauer, supervisor of operation and maintenance.

School officials said job specifications are being developed and the new organization setup will be explained to school principals and teachers.

Dr. Watkins reported that Maude Rousseau Elementary School will open Nov. 16, giving sufficient time to ready the new building and make transfer of pupils at the end of the first quarter.

The "official membership" count of the Lincoln public schools was reported at 29,980 students, a gain of 1,304 from the 1963-64 school year.

This included 18,292 in elementary schools, 6,078 in junior high and 5,286 in senior high.

Service Station Pop Machines Tampered With

Three service stations reported to police that soft drink machines had been tampered with.

Blum's Conoco Service, 56th and South, told police that \$3.50 was taken from a soft drink machine.

Thieves netted \$1 from a pop machine at Richard's Mobil Service, 2801 So. 48th.

An attempt was made to break open two machines at H and D Phillips 66 Service, 5500 South, but no money was taken.

Police said that the incidents apparently took place Monday night or early Tuesday morning.

Chadwick Would Be Non-Political In Representation

Legislative candidate Lawson Chadwick said Tuesday he "would not sacrifice principle to step ahead in a party machine and would represent both Republicans and Democrats as a non-political legislator" if elected.

Chadwick said his 27th District opponent, Sen. Marvin E. Stromer, "should reject this dangerous extremism of Senator Goldwater that dominates much of our political life."

Burglars Hit Several Lincoln Businesses

Several Lincoln businesses were burglarized Monday night or Tuesday morning, according to police.

The Earl Carter Lumber Co., 6200 Platte, reported to police that someone entered the office by breaking a window, and forced open the safe. Approximately \$125 was taken from the safe.

An estimated \$40 was taken from the Lincoln Bottling Co., 6322 Havelock, after someone entered by forcing a rear door, police said.

An attempt was apparently made to crack a safe at Donover's Texaco Service, 6300 Havelock, by someone who had entered through a rear window. Police reported that apparently nothing was taken.

The Standard Planing Mills, 1040 No. 11th, was entered, but police said that nothing was reported missing.

Tear gas drove out burglars who had entered the Lincoln Mills, 900 Vine, before they were able to take anything. Police said that entry had been gained by forcing a door.

The Peter Pan Bakery, 6117 Havelock, was entered, according to police, but the extent of the loss has not been determined.

# TOWN TALK

SEVEN SHORT years ago Lincoln basked in the reflected glory of a Miss Rodeo of America. The young lady was Miss Dallas Hunt — now Mrs. James Shields. Mrs. Shields hasn't been competing for national honors since 1957, but on Nov. 4 she goes to Las Vegas, Nev., where the International Rodeo Association and the Rodeo Cowboys Association will present a rodeo spectacular which has an intriguing title—"The Sheriff's Mounted Posse Rodeo of Stars."

Mrs. Shields has been invited to Las Vegas to attend the 10th reunion of Miss Rodeos of America. This year, so we are told, the presentation of the 1964 Miss Rodeo of America will follow the pattern of the Miss America pageant, and we suspect that some of the former Miss Rodeos will be much in the limelight — including Mrs. Shields.

ON ALMOST every tourist's "must see" list while in Paris is the famous Flea Market. But never let it be said that Lincoln can't have what Paris has—within limits, of course—So, the town is having a Flea Market for just one day—Tuesday, Nov. 10.

We don't need to tell you, naturally, that the Flea Market strictly is a local project—it is the brain child of the Lincoln Junior League, and it will be held on Tuesday, Nov. 10, at the Lincoln Country Club, where League members will be attending their November meeting. Just in case anyone is confused we'll mention that normally the League meets on the first Tuesday of each month but we have heard that another big production is planned for Tuesday, Nov. 3—an election.

We also have the impression that the sustaining members of the League are most cordially invited to go to market on Tuesday, Nov. 10—with well filled wallets, of course.

THE FORECAST for the approaching weekend is—gay. There will be guests galore and parties all over town. There is plenty of time left in the week for the

telling of weekend guests and plans—At this moment we have current guests to mention.

We learned, for instance, that Mr. and Mrs. Phil Colbert have house guests—Mr. and Mrs. Jerry Brownfield of Estes Park, Colo., formerly of Lincoln.

Mr. and Mrs. Brownfield arrived on Tuesday, and although they are mixing a bit of business with pleasure during their two weeks stay, we suspect that the days and evenings will lean rather heavily towards the fun side.

ANOTHER name on the guest list is that of Mrs. Glen L. Buck of Valentine. Mrs. Buck, the former Linda Kimmel and a Theta at Nebraska, will be joined by Mr. Buck for the game weekend.

Dear Abby

## Swallow Your Pride

Abigail Van Buren

DEAR ABBY: I have been dating a golf pro for the past six months and he has been giving me golf lessons free of charge. On our third date he asked me to marry him, but said that due to some financial reasons he would have to postpone marrying me for about a year. Hoping to hasten the marriage, I let him have about \$500. I just found out that he has been dating another girl and giving her golf lessons for nothing. Now I realize that he was only using me, but I must admit he improved my golf game a lot. I have too much pride to tell our club president, but I would like to get my money back. How?

DUMB BLONDE  
DEAR BLONDE: Forget your pride and tell the club president that his golf pro is under par in more ways than one. And don't get so palsy-walsy with professional swingers again unless you can remember to keep your head down and your eye on your purse!

DEAR ABBY: In your reply to "WORN OUT," the mother of 10 who was expecting her 11th, you say, "If it is not contrary to your religion, call your Planned Parenthood Center."

To my knowledge, the Planned Parenthood pro-

### COTNER TERRACE

Since autumn has arrived, the need for lawn mowers has been replaced by a variety of rakes — to collect the blanket of crunchy leaves.

Considerable time doubtless will be devoted to raking leaves and dead grass into a good-sized pile, only to have a frisky dog decide to attack the heap with vigorous actions.

However, as the scent of burning leaves and branches wafts over suburbia — the residents have plans to entertain some of the many guests in Cotner Terrace this week.

Beginning the list of Lincoln visitors to welcome this morning are the guests at the home of Mr. and Mrs. Kenneth Bills.

Their autumn travelers from Hoquiam, Wash., are Mrs. Bills's parents, Mr. and Mrs. Charles Fulton, who arrived a week and a half ago and who will be spending a few more days in Lincoln.

A traveling mood also has found a friendly atmosphere in Cotner Terrace, too. Motoring to Superior on Sunday were Mr. and Mrs. Leland Ward and daughter, Patti.

They were the guests of Mrs. Ward's brother-in-law and sister, Mr. and Mrs. Harold Cudaback for a day's visit before returning home Sunday evening.

Mr. and Mrs. Dwaine Karr and family also spent part of the weekend on the road. They traveled to the home of Mrs. Karr's brother-in-law and sister, Mr. and Mrs. Ed Foster of Friend on Saturday.

Most of the day for Mr. Karr was spent with shotgun in hand — looking for pheasants.

The Rev. and Mrs. Forrest Morningstar returned Monday evening from a two week's vacation in Indiana. Their first stop-over was in

Elkhart, Ind., where they visited at the home of the Rev. Morningstar's parents, Mr. and Mrs. Lloyd Morningstar.

After Elkhart, their destination was Kokomo and the home of their son and daughter-in-law, Ale and Mrs. Kenneth Morningstar. Following the visiting it was time for business — for the Rev. Morningstar. They continued on to Chicago, where he attended a communications council meeting for a few days before the return trip home.

The Nebraska king of sports — football — figures heavily into the Saturday plans of Mr. and Mrs. Louie Rudman. Their guests for the game and post-game activities will be Mrs. Rudman's brother-in-law and sister, Mr. and Mrs. Herbert Ringenberg of Lexington.

For those very few people who didn't know, Nebraska will be playing Missouri.

### NORTHEAST HEIGHTS

A triple celebration was held Sunday, two-thirds of which was for Mr. and Mrs. Robert Brehm. It was Mr. Brehm's birthday and also the Brehms' wedding anniversary. The affair also honored a birthday—that of Mrs. Brehm's uncle, George Bodenstein.

The party was held at the home of Mr. Brehm's parents, Mr. and Mrs. Albert Brehm, and the guest list included Mrs. Brehm's parents, Mr. and Mrs. Frances Bodenstein; and her grandmother, Mrs. Charles Bodenstein.

Anne Wilson, daughter of Mr. and Mrs. Lowren Wilson, celebrated her third birthday Oct. 16 with an afternoon party at her home.

The three-candled cake was shared by Anne's brother, Bill, and her guests, Keny Kucera, Rhonda TeKoi, Julie Zadi, and Vicki

and Alan Orthengren.

Mr. and Mrs. Wilson will entertain the members of their Sunday School class, the Climbers of Christ Methodist Church, at a Halloween party on Saturday evening. About 12 couples will attend.

# Sometimes Jolt Turns Trick

Josephine Lowman

Reducers are all the same at heart! They are shooting for the same goal and have many of the same problems. Once in a while I bring you some of the tricks in reducing which my readers send me because they have found them to be helpful, and believe that they may also aid you.

The following is a rather unusual letter and would send any woman who is not expecting a rather "off her rocker" or baby out of her rocking chair to exercise and diet. This reader wrote:

"The next time you print things which spur a woman on to lose weight, print this one. A woman asked me, 'When are you expecting your baby?' Believe me, that did it! I got busy and lost my overweight."

I do not know whether the woman said what she did out of malice or friendly interest or because she was just

tactless. No matter what her intent was, she turned out to be a friend because she activated my procrastinating reader.

## Takes a Jolt

Sometimes we women must be jolted into reality by a shock such as this or finding that we simply cannot get into a dress we loved last year. Women often do without glasses until they must read at an arm's length, and their arm will not stretch any further. It's good for us when we are snapped to attention by such incidents.

Many women who are not greatly overweight have a protruding abdomen which is extreme enough to make them appear to be pregnant. This is due to lax abdominal muscles and an accumulation of fat over the muscles. The muscles can be strengthened with exercise and the fatty deposits can be reduced. The

pull and stretch of an exercise is helpful and fat is most apt to gather over inactive muscles.

## Splendid Abdominal Exercise

Sit on the edge of your chair. Straighten your back all the way. Now pull your abdomen in as hard as you can and also pull your diaphragm in and up until there is no bulge at that point. Hold while you count to six slowly. Then gradually relax the muscles. Repeat several times a day. Be sure that you make the contraction complete and hold for a six count.

If you would like to have my exercises for slimming the tummy which have been used with great success in my classes, send a stamped, self-addressed envelope with your request for leaflet number 2 to Josephine Lowman in care of Lincoln Star, Lincoln, Nebr.

## Sorority Meetings

Homecoming at Nebraska Wesleyan University on Saturday will provide an opportunity for active and alumnae members of Delta Zeta sorority to hold annual business meetings.

At 10 o'clock Saturday morning, the sorority will hold its annual Corporation Board meeting followed by an 11 o'clock brunch at the chapter house.

Featured speaker will be Mrs. C. Rodney Stoltz (Virginia Cotton) of Watertown, S.D., a Wesleyan graduate and Delta Zeta alumna. Mrs. Stoltz is the immediate past president of the American Medical Association's Women's Auxiliary, and currently serves as a member of the national board of directors.

The sorority activities will conclude with the annual meeting of the Beta Tau Association.

## Club Entertained

Following the Monday evening dinner of the Lincoln Toastmistress Club at the Capital Hotel, the members were the guests of Mr. and Mrs. Robert D. Meyerhoff and their sons at their new home.

Program speakers were Mrs. Josephine Eyer and Mrs. Meyerhoff, with Mrs. Dorothy Cristo as toastmistress, and impromptu talks given by Mrs. Jean Coil.

Miss Ann Gustafson and Miss Cora Mae Briggs were introduced by Mrs. Bryan Stromer.

Mrs. Meyerhoff, a member of the club, also serves as vice chairman of the Cornhusker Council 5, of the international organization's North Central Region. Guests of the club were Miss Edna Jacob and Mrs. Charity Greene.

The bidding:  
West North East South  
1 ♠ Pass Pass 4 ♥

Opening lead—queen of clubs.

A play that has a good chance to succeed is obviously not as good as a play that is certain to succeed. Whenever the element of luck is present and can be eliminated, that is clearly the thing to do.

Here is a typical case. South is in four hearts and West leads a club. East takes the ace and returns a club to the king. How should South play the hand in order to avoid the danger of also losing two diamonds and a spade?

The actual declarer took two rounds of trumps and played a low spade to the king. West won with the ace and returned the seven of spades. Mindful of West's opening spade bid, South finessed the ten, losing to the jack. He then lost a trick to the ace of diamonds and went down one.

There is no doubt that South was unlucky to lose the finesse to the jack, since it was highly probable that West would have that card. However, this was far from a certainty, and South should have taken steps to cover the possibility that East had the jack.

What he should have done after drawing two rounds of trumps, ending in his hand, was lead a low spade to the queen. West would have been obliged to play low and the queen would have won.

ADVERTISEMENT  
**ARE CONTACT LENSES REALLY SAFE?**

Three years of diligent research have produced a new antiseptic contact lens which has tested out to be chemically safe, according to Kindy Optical Company, 1309 "O" Street, Lincoln.

The safety features of the new lens have been confirmed by Northwestern University and a nationally recognized research laboratory. Tests prove that the new lens arrests the growth of germs, thereby preventing or retarding possible infections caused by carelessness of the wearer or by dust particles.

Although all contact lenses are considered safe with proper fitting and proper wearing habits, Kindy presents the additional safety margin of the new lens.

Complete information and literature may be obtained without obligation at Kindy Optical Company, 1309 "O" Street, Lincoln and 107 So. 16th Street, Omaha.

## DAR Board

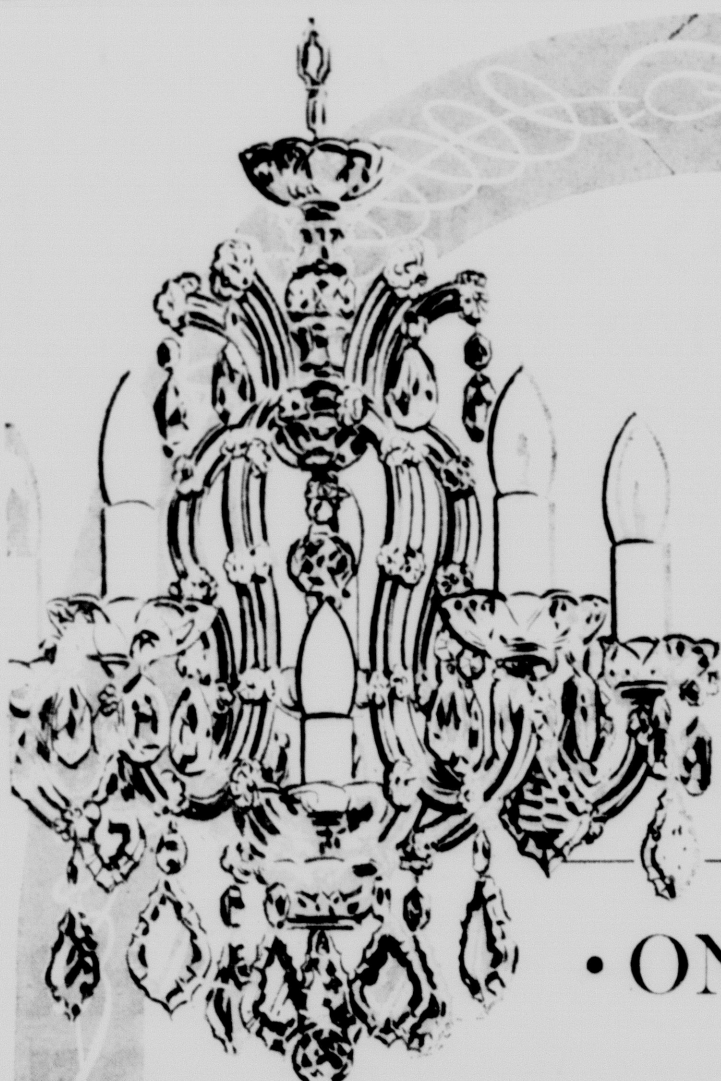

Mrs. Wilbur E. Oxley will preside at a meeting of the board of Deborah Avery Chapter, DAR, on Friday morning at the Hotel Cornhusker. The meeting will begin at 10 o'clock.

## Betrothal

Announcement has been made by Mr. and Mrs. Clarence Voorhees of Hastings, of the betrothal of their daughter, Debby, to Douglas Clarke, son of Mr. and Mrs. Donald W. Clarke of Hastings.

No date has been set for the wedding.

A student at Hastings College, the bride-elect has attended the University of Nebraska where she is a member of Alpha Delta Pi sorority. Her fiancé, also a former student at the University of Nebraska, is a senior at Hastings College and a member of Eta Phi Lambda fraternity.

POSTCARD by Stan Klapansky

The rain in Puerto Rico falls mainly on the tourist. Tropic rain doesn't come down in drops. It falls in sheets of water, each one hitting like a whip crack.

The mountain spine — where the rich Puerto Rican coffee grows under the shade trees — was hidden in the cloud mist. Through it there was an occasional flash of lightning. And then the thunder rolled, crashing down the valleys to the coast.

On this southern coast, on July 25, 1898, Navy Lieutenant H. P. Huse took a converted yacht and 28 men into the harbor at Guanica.

He signaled back to the fleet: "Request permission to enter."

A few minutes later the first American troops landed in Puerto Rico. The army followed in transports. Slapped mosquitoes and complained of a War Department that had outfitted them in heavy blue uniforms left over from the army of the Potomac in 1865.

The liberation was accomplished in some three days. The Spanish were suing for peace in Paris.

The army started up the hills from Ponce. Poet Carl Sandburg, just under 21, reported:

"We carried cartridge belt, rifle bayonet, blanket roll, half a canvas pup tent, haversack with rations, a coat. We still wore the heavy blue-wool pants of '65 and thick canvas leggings laced from ankle to knees."

After they got almost to the top of the mountains, word came that the war was over. And so they marched back down again. The army doesn't change much.

One of the first pieces of news from San Juan was a brawl between soldiers in the restaurant La Mallorquina. It is still there and serves a very good lunch.

There was practically no shooting. The war was over before opposing troops could make contact.

Richard Harding Davis, the famous war correspondent, described it as a "fete des fleurs."

Peter Finley Dunne wrote one of his Dooley columns: "General Miles' Grand Picnic and Moonlight Excursion to Portor Rico."

It's a beautiful trip (by car) over the mountains that Sandburg and the Sixth Infantry Regiment of Illinois Volunteers climbed up.

All along the country roads are the "colmados." The little general stores where Puerto Rico buys rice and beans, soap and the bay rum "alcoholado" which is the medicine chest of the household. Good for the nerves or mosquito bites.

The high population density is not so apparent here. It runs nearly 700 to each Puerto Rican square mile.

A lot of the country people have gone to San Juan where they created the most dismal slums. Most of them have been cleaned up and replaced by neat public housing. But you can find some appalling reminders.

You can buy a very fine soft cheese up here. It is eaten with a sweet preserve. Bananas swing under the broad banana palm leaves. (They grow up — just the opposite of the way they hang in a grocery store.)

There are great barns of drying tobacco. (The boycott of Cuba did great things for Puerto Rico's tobacco business.)

The rain was heavier in the mountains and ran down the roads so that they looked like shallow little rivers.

Within a month after the Americans landed, a San Juan publishing house had put out a phrase book: "English in seven lessons."

And in Ponce, Eugenio Deschamps began publishing — in English — "The Porto Rico Mail."

Soldier Sandburg himself in Ponce. Found he had lost 22 pounds on the sweating walk up the mountain.

He got on a transport and sailed for New York where he read Ambassador at London John Hay's letter to Theodore Roosevelt:

"It has been a splendid little war..."

'CURTIS AIDE DISTRIBUTED RACIST CARDS'

The Nebraska Republicans for Johnson organization said Tuesday that Kenneth Green, a member of the state Republican Central Committee and outstate representative for Sen. Carl Curtis, was "among those who distributed literature prepared by a 'front' organization of the notorious racist Gerald L. K. Smith."

Green was out of town and could not be reached for comment. Bernard S. Gradwohl, chairman of the GOP group for Johnson, said Green had distributed a "Bobby Baker" card "which carried on its back an invitation" to contact the Smith group. Gradwohl had previously charged that the card, and

another piece of Smith literature, had been used in Omaha by Republicans. Republicans said the card had been withdrawn there after protests.

Party Official Gradwohl charged that

Green, because of his party office and connection with Sen. Curtis (Sen. Barry Goldwater's floor manager at the GOP National Convention), "certainly must be considered an official of the Republican Party and of the Gold-

water organization." He said Green had received up to \$4,400 a year as a Curtis assistant since 1959.

"If Barry Goldwater and the present Republican Party organization were serious about not wanting any political benefit from the literature of openly racist hate organizations, this sort of thing could not have happened," Gradwohl said. "It has not happened in past presidential campaigns because the Republican candidates have vigorously denounced it."

Gradwohl said it "would be interesting to know" whether the "pipeline between Smith and the Goldwater organization is still in operation," and asked, "Why didn't Mr. Green receive the cards he had passed out?" "Morality would demand that Barry Goldwater himself minimize this harm . . . He should utter denunciation in no uncertain words," Gradwohl said.

Colwell Tells Six-Point Plan To Help District

Grand Island—A six-point program aimed at gaining for the Third Congressional District "its fair share of the economic growth of America" was advanced here by William E. Colwell, Democratic candidate for Congress.

Colwell's program calls for: —establishment of a Beef Export Council to spur cash sales of beef in cash markets in Europe.

—accelerated development of needed skills in our labor force through expanded vocational education and continued emphasis on manpower retraining.

—improved farm programs on wheat and feed grains.

—expansion of educational opportunities.

—improvement and modernization of water resources programs.

—emphasis on a "Sell Nebraska Program" to promote industrial development, tourism and recreational opportunities.

Gerdes' Support Gladdens Colwell

Grand Island — "The support State Sen. George Gerdes has given me in my campaign for Congress has been a great source of satisfaction to me all during my long campaign," William E. Colwell said Tuesday.

"The fact that a few people in his district have chosen to try to defeat him because of his support for me, and his lack of support for my opponent, again illustrates the great difference between the positive position of Senator Gerdes and myself and those who seek to defeat us."

Pranksters Close Road

Seymour, Ind. (AP) — Halloween pranksters have caused the closing of a state road in this southern Indiana area. They burned holes in two wooden bridges on Ind. 39 south of here by setting fire to straw piled on the bridges, police said.

Lincoln Taxi Rate Hearing Set Nov. 9th

The State Railway Commission has set for Nov. 9 a hearing on rate changes proposed by Lincoln's two taxi cab companies.

The Capitol Cab Co. and the Yellow Cab Co., Inc., seek to change their rates and the time periods for which the rates are charged.

The cab companies now charge 45 cents for the first half mile, and five cents for each additional 1/4 mile or fraction thereof. They request a rate of 35 cents for the first 1/2 mile, and 10 cents for each additional 1/4 mile or fraction thereof.

The companies seek to raise their rates from 50 cents to 60 cents for each speedometer mile driven outside the city limits.

They request changing their waiting time rate from five cents a minute or fraction thereof, to 10 cents for each two minutes or fraction thereof.

The cab companies requested rate changes a year ago, but were turned down by the Railway Commission. The companies appealed to the State Supreme Court, which found for the companies and ordered a new hearing by the Railway Commission.

SRB'S OFFICE ASKING 26.5% BUDGET SLASH

The Legislative clerk's office Tuesday requested a \$53,950 appropriation for fiscal 1965-67.

The request is a 26.5% decrease from the department's \$73,473 allotment for the current biennium.

Legislative Clerk Hugo Srb said the cost of printing and publishing bills accounts for a \$24,199 decrease in the request. He proposed that printing costs be included in the legislative session services allowance, which the Legislature will determine when it convenes.

The budget request calls for salary increases, including a raise in Srb's salary from \$11,000 to \$12,000 a year.

NU Regents Set Friday Parley

The University of Nebraska Board of Regents will meet at 1:30 p.m. Friday in the administration building.

Fire Protection Boundaries Aired

Conflicting views of over 60 southwestern Lancaster County residents over rural fire district boundaries received a one and one-half hour hearing before the Lancaster County Board Tuesday under "standing room only" conditions.

More than 40 residents of the proposed Highland rural fire protection district represented by attorney Jack Craven gave their opinions that the district should be allowed to organize and negotiate with nearby towns — probably Crete — to obtain fire protection.

Another group, represented by attorney Rollin Bailey, protested its exclusion from the Highland District and advanced an alternate plan under which the entire area including Highland District would combine and be served by Southwest rural district with trucks at Martell and Denton and some of the area served by the Crete Fire Department.

County board members — plugging the need for a new courthouse to the overflow crowd — deferred action until the two groups could obtain information on whether the Crete department might serve the entire area.

In the second public hearing, residents of Cheney, an incorporated community south of Lincoln, appeared to protest junk yards located in their community.

Their attorney, Robert Camp, related that one junk-

yard operation was engaged in construction of a building without a permit, was encroaching on nearby property owners' lands and on the county roadway and was engaged in melting down metals and auto parts, "creating an obnoxious odor and much soot."

The County Board assured the 20 Cheney residents present that action to curb any illegal operations of the junk yards would be taken and that a check would be made to determine what could be done to relieve the situation.

der which the entire area including Highland District would combine and be served by Southwest rural district with trucks at Martell and Denton and some of the area served by the Crete Fire Department.

Tenth District: Lansing Anderson, Holdrege, and Alfred W. Blessing, Hastings.

Twelfth District: James M. Knapp, Kearney.

Fourteenth District: Henry W. Curtis, Imperial.

Sixteenth District: Robert R. Moran, Alliance.

Eighteenth District: William B. Rist, Beatrice.

Hruska Raps Trades With Red Countries

Crete—Sen. Roman Hruska said Tuesday night that the Johnson administration's policy of trading with Communist nations "threatens America's leadership in the Free World."

Britain and France are "stepping up their trade with Red China, Cuba and the Soviet Union itself while we lack the ability to influence them in any other direction since we have ourselves sold wheat to the Russians and entered into trade agreements with other Communist countries," he said.

## 3 Candidates For FEP Legislation

A state fair employment practices act has the general support of Gov. Frank Morrison and both candidates for lieutenant governor.

Morrison, Democrat Philip Sorensen and Republican Charles Thone all endorsed such legislation in reply to questioning from the League of Women Voters of Nebraska.

Their replies are contained

in the Nebraska Voters Guide, published by the League.

Morrison said "we need some form of employment practices legislation."

Thone said "Nebraska should promptly enact an effective fair employment practices act to complement the federal statute," that is the civil rights act of 1964.

Sorensen said "F.E.P. and other legislation can provide a fair, conciliatory means of bringing about equal opportunity for all citizens."

All replies were directed at the question: "Do you favor state legislation to insure equal rights to all citizens of Nebraska?"

Republican gubernatorial nominee Dwight Burney replied: "We must continually search for a solution to the problem of equal rights. In legislation, we must not go so far that an employer does not have the right to employ that applicant which he considers to be best qualified. Laws are so rigid."

In reply to another League question, Burney said that "it would seem that if the state were divided into (public power) districts patterned after Omaha Public Power District, it would approach the ideal."

Possibly, Burney noted, this

## Health Engineers From Ten States Will Meet Here

Environmental health engineers from 10 states will meet in Lincoln Wednesday for the annual four-day Missouri Basin Engineering Health Council Conference.

Nebraska Sanitation Engineer T. A. Filipi said the engineers will evaluate the present quality of the Missouri River in relation to standards set by the council in 1956.

Representatives from Montana, North Dakota, South Dakota, Minnesota, Wyoming, Iowa, Colorado, Kansas, Missouri and Nebraska are scheduled to attend the conference.

Filipi said the council has been instrumental in hiking the water quality of the Missouri River.

"Because of the council," he said, "the Missouri Basin is conspicuous across the United States for its water quality improvements."

Filipi said representatives of the Public Health Service will explain new federal legislation in the area of environmental health, and Nebraska officials will outline the operations of the Nebraska Environmental Health Division.

## Code Use Advocated

Washington — Enforcement of local housing codes as a step to fight slums and urban blight is advocated by the National Association of Real Estate Boards as a major step in its 1964 program. Nearly 740 United States cities specify minimum health and safety standards.

## More Vocational Schools Advocated By Sorensen

"Nebraska can cash in on the greatest economic opportunity since homestead days if it will train its young people for the vocational-technical jobs available in an otherwise tightening job opportunity situation — and keep them

in the state," Philip C. Sorensen, Democratic candidate for lieutenant governor, said Tuesday.

"The national figure of one million unfilled technical jobs is reflected in what we know to be true in Nebraska," Sorensen said. "At the present time the vocational-technical school at Milford has a waiting list at both ends—those wanting to get in and employers waiting to hire graduates. And 90% of all Milford graduates stay in Nebraska."

He pointed out that "if we had two more facilities in Nebraska like the only state-operated school we now have,

it would only take care of the present demand." Milford has 614 two-year students enrolled, selected from among 1,500 applicants.

"These people actually applied," Sorensen said, "while many, knowing the facilities are not presently available, do not bother to apply." Some 3,000 graduating high school students in Nebraska last year indicated a desire for some type of further education in the vocational-technical field.

"The pity of this is that there are jobs available; jobs that will pay a trained person a higher wage than he can

presently make, which would reflect an economic boom for the state. There are single employers who have told Milford they would hire the entire graduating class from one or other of the present 11 fields of training, sight unseen," Sorensen said.

## Barry's Son To Speak At YR Luncheon Here

Barry Goldwater Jr. will speak at a luncheon in Lincoln Wednesday hosted by the Lancaster County Young Republicans.

The event will be held at the Lincoln Hotel, beginning at 11:45 a.m. Tickets are \$1.75.

The son of the Republican presidential nominee will also appear at six coffee receptions in Lincoln Wednesday.

The "Sunday Journal and Star" delivered at your door has five sections of interesting, timely features. You'll like the sports section known as the Sports Red, whether your a Husker fan, or hunter.

Coffee Club Question

When your coffee club chatter gets a little dull this week or when your bridge club meeting begins to drag, why not spring this question on your guests:

What do Mississippi, Oklahoma, Illinois, Washington, Auburn, Syracuse and Navy have in common?

Now you may get answers ranging from all have parking problems on the campus to their students dislike the dormitory food. But the correct answer is that all were in the Associated Press pre-season top ten football poll, but no longer.

The Associated Press poll is used here because it is manned by a selected board of sports writers while United Press International uses a coaching board.

This point is made only to illustrate that coaches may be a bit smarter than the writers because they don't put out a rating until after the first week's games have been played.

The pre-season top ten now has a record of 37-18-2 while this week's list has a 53-2-1 mark which proves, if nothing else, that sports writers don't have one-track minds. In fact, they change their minds more than a woman trying to buy a pair of shoes.

And it's quite apparent that the first pair of shoes the Associated Press board bought didn't fit very well.

Three of the pre-season top ten don't even have winning records at this point in the season. Oklahoma, originally rated No. 2, is 2-3; Washington, a seventh-spot choice, is 2-4; and Navy, the 10th team, is 2-3-1.

Second-rated Oklahoma, No. 7 Washington, No. 8 Auburn, No. 9 Syracuse and No. 10 Navy didn't get a single vote in the latest poll.

Which may mean that writers look on football like a non-trusting girl friend looks at her latest escort — one mistake and you're forgotten.

The trick to nailing down a spot in the polls is to not lose. Only two of the top ten have lost and those losses were to other rated teams — Florida to Alabama and Texas to Arkansas.

Coaches Favor Big 10

The coaches (UPI) and writers (AP) are in close agreement on most teams in this week's polls, but one area of disagreement is easily noticeable.

This comes between the Southeastern Conference and the Big Ten. The writers have placed three SEC teams in their top ten while the coaching board favors the Big 10 and replaces two SEC teams (Florida and LSU) with two Big 10 outfits (Michigan and Illinois).

All four have nearly identical records with Michigan, Illinois, and Florida all 4-1 while LSU has a tie instead of a loss to go with its four wins. Aren't polls fun?

OMAHA BOXER WINS IN BRITAIN

Omaha's Bill Nielsen, right, and Johnny Prescott of Britain meet eye to eye during weigh-in for heavyweight fight Tuesday night. Nielsen, a former Golden Gloves champion in Nebraska, was awarded an eighth round victory when Prescott was disqualified for butting. He had been repeatedly warned.

Tennessee Linebacker Wins Award For Pestering LSU

... HUSKER'S MIKE GRACE CONSIDERED

New York (AP)—Steve DeLong, the latest in a long line of great linemen at Tennessee, was named the Associated Press Lineman of the Week Tuesday for his outstanding defensive performance against Louisiana State University.

The game last Saturday ended in a 3-3 tie but it might well have been a victory for the favored Bayou Bengals from LSU had it not been for the 6-foot-3, 245-pound guard from Norfolk, Va.

DeLong, who plays middle guard on the defense, led the charge which twice stopped LSU on the one-foot line.

"He was in the thick of our goal line stand," said Coach Doug Dickey of Tennessee. With a little yardage as they had to go (it was third down and one for the TD) we felt LSU would run straight ahead. They did and we were mighty glad DeLong was there to stand in the way."

Dickey said "DeLong played his best game of the season against LSU—perhaps his best ever. Dickey also pointed out that LSU applied defensive pressure all during the game and was the man who gave the Volunteers the leadership on defense.

DeLong's selection as the outstanding lineman of the week wasn't by any great margin. Mike Grace, Nebraska end, and linebackers Jim Carroll of Notre Dame, Dick

Butkus of Illinois, Tommy Nobis of Texas and Ronnie Caveness of Arkansas also came in for consideration.

Grace harassed the Colorado backfield from his end position as the Huskers won their sixth game of the season Saturday at Boulder, 21-3.

Carroll was in 18 tackles as Notre Dame's defense held Stanford to a net one-yard rushing in posting a 28-6 victory. Butkus made 16 tackles and intercepted one pass as Illinois whipped UCLA 26-7.

Nobis and Caveness headed this week's All-America check list in the Southwest Conference. They each were credited with a dozen tackles as Texas edged Rice 6-3 and Arkansas downed Wichita 17-0.

LHS Reserves Roll

The Lincoln High reserves had seven men in the scoring column as they defeated the Grand Island reserves, 28-13 Tuesday night.

Devaney--Tiger Defense Tough

... 'TACKLING BACKS ARE BEST YET'

By HAL BROWN Star Sports Editor

Missouri will present Nebraska's offense with its toughest test thus far this season, Husker coach Bob Devaney noted Tuesday.

"Missouri is always tough defensively," the Husker coach remarked in a voice barely audible because of laryngitis. "Their running defense is good and they play good pass defense."

Devaney pointed out that

in Johnny Roland and Ken Boston, the Tigers have the fastest defensive secondary the Huskers have faced.

"They also are the best tackling backs we've faced yet," he added.

Devaney explained that Missouri's defensive strategy may set the course of the Husker attack.

"Last year, we hurt them by running inside because they were set to stop our wide stuff," he said. "We don't know what part of our

offense they'll key on this time."

The Missouri offense, while not a high-scoring machine thus far, also presents a few unique problems, mainly because of quarterback Gary Lane.

"Lane throws the long pass as well as any quarterback," Devaney pointed out. "He ranks with Hankinson of Minnesota and Reese of South Carolina as a passer."

"But, he's more dangerous as a runner because

Nebraska Prep Ratings

By Don Forsythe

Effective Defense Is Key To High Class D Rating

... NORRIS LEADS 8-MAN

By DON FORSYTHE Prep Sports Writer

Defense continues to steal

the spotlight in Class D football with top-ranked Silver Creek and third-ranked Edgar capitalizing on airtight defenses for perfect seasons.

Silver Creek protected its No. 1 spot with a 40-0 rout of Class C Genoa. It marked the sixth shutout in seven games for Evert Stokes' rugged club, which has given up only one touchdown all season.

Edgar knocked Fairfield from the ranks of the undefeated with a 6-0 decision last week. Richard Zart's eleven has given up only two touchdowns all season and has blanked four opponents.

Sandwiched between the two defensive-minded clubs is Polk, which is sporting a 7-0 record and looking ahead to a final week showdown against the No. 1 ranked Tigers.

Lyman advanced to No. 4 ahead of Fairfield after stopping potent Pine Bluffs, Wyo., 19-7. Lynch, showing power after a slow start, ripped Spencer, 32-6, to maintain its spot at the top of the second division.

Team Records On Page 14

Elgin St. Boniface and Springfield, the seventh and eighth-ranked clubs also flexed their muscles last week. St. Boniface belted Wolbach, 33-13, and Springfield ripped Stuart, 54-0.

In eight-man play, Norris has a precarious hold on the No. 1 spot after being extended by Alto-Eagle. The Titans have another tough test this week as they tangle with once-beaten Adams.

Shifting behind Norris and runnerup Beaver Crossing finds Madrid, Winnebago and Barneston moving in ahead of Bartley. Mead continues to climb and now stands in the No. 7 spot. Newcomer this week is Beatrice St. Joseph, headed for a possible showdown with Barneston in the Homesteader Conference playoff.

Class D

1—Silver Creek (7-0) 6—Lynch (5-1-1)

2—Polk (7-0) 7—Elgin St. Bon. (5-1)

3—Edgar (6-0) 8—Springview (3-1-2)

4—Lyman (6-0-1) 9—Dalton (4-2)

5—Fairfield (6-1) 10—Clay Center (3-4)

Challengers — Hartington (3-3-1), Dix (4-3), Wolbach (4-2), Davenport (3-4).

Eight-Man

1—Norris (5-0-1) 6—Bartley (7-0)

2—Beaver Crossing (7-0) 7—Mead (7-0)

3—Madrid (7-0) 8—Chadron Assumption (7-0)

4—Winnebago (7-0) 9—Doniphan (7-0)

5—Barneston (7-0) 10—Beatrice St. Joseph (7-0)

Challengers — Peru Prep (6-0), Sutherland (7-0), Elgin (6-0), Juniata (6-0), Pleasanton (6-1), Wilcox (6-1), Farnam (6-1), Wallace (5-1).

UPI HIKES HUSKERS

Buckeyes' Grip Tightens On 1st

... NU FOURTH

New York (UPI) — Ohio State and Notre Dame, two awakened Midwest giants, ranked first and second, respectively, Tuesday in the United Press International major college football ratings.

Notre Dame's Fighting Irish gained their highest rating since Sept. 28, 1954, Tuesday when they edged Alabama by two points to grab second place. Ohio State received 25 first-place votes from the 35 coaches on the UPI rating board to hold the leadership for the second week.

Alabama, which received five No. 1 ballots, nevertheless slipped from second to third place. Notre Dame was one of four teams awarded one first place vote. The others were fourth-ranked Nebraska, fifth-rated Arkansas and sev-

enth-place Georgia Tech. All are unbeaten and untied.

Nebraska took over fourth place from Arkansas by a three-point margin; defending national champion Texas remained sixth, and Georgia Tech advanced two places to seventh.

Michigan, Illinois and Oregon, which ranked 12-13-14 in that order a week ago, moved up in a group to the eighth-ninth and 10th places, respectively. Eight-ranked Michigan and ninth-ranked Illinois, both of the Big 10, have identical 4-1 records, while Oregon has captured six straight without a defeat.

Only 18 teams received ballots from the coaches, resulting in the heaviest concentration of votes in the history of the ratings among the Top 10 teams.

Syracuse, Florida and Louisiana State lost their membership in the Top 10. Unbeaten Louisiana State ranked 11th after tying Tennessee, followed by Duke, also unbeaten but tied, in 12th place. Florida dropped three places to 13th after losing in the final minutes to Alabama Saturday and Oregon State vaulted from 20th to 14th after its stunning victory over Syracuse, 31-13.

Purdue, unbeaten in the Big 10, rose from 17th to 15th after its victory over Iowa, and Utah State, No. 16, winner of five straight since its opening game loss to Arizona State, made its first appearance in the ratings.

Florida State, knocked from the unbeaten ranks Saturday by Virginia Tech, slipped from 11th to a 17th-place tie with unbeaten but tied Yale, the first Ivy League team to be ranked this season. They were the only other teams to receive votes.

Georgia Tech visits Duke and Purdue hosts Illinois in the only games matching ranked teams next weekend.

The UPI coaching board is made up of five leading coaches from each of the seven geographical areas of the nation. Each week they select the Top 10 teams in the nation with points awarded on a 10-9-8-7-6-5-4-3-2-1 basis.

The United Press International major college football ratings with first-place votes and non-loss records in parentheses.

TEAM POINTS

1. Ohio State (26) (5-0) 334

2. Notre Dame (1) (5-0) 288

3. Alabama (19) (6-0) 286

4. NEBRASKA (1) (6-0) 260

5. Arkansas (1) (6-0) 197

6. Texas (5-1) 139

7. Georgia Tech (1) (6-0) 96

8. Michigan (4-1) 96

9. Illinois (4-1) 96

10. Oregon (6-0) 61

Second eight—11. Louisiana State 60;

12. Duke 38; 13. Florida 37; 14. Oregon State 30; 15. Purdue 15; 16. Utah State 3; 17. (tie), Florida State and Yale 1.

(Only 18 teams received votes).

Grace harassed the Colorado backfield from his end position as the Huskers won their sixth game of the season Saturday at Boulder, 21-3.

Carroll was in 18 tackles as Notre Dame's defense held Stanford to a net one-yard rushing in posting a 28-6 victory. Butkus made 16 tackles and intercepted one pass as Illinois whipped UCLA 26-7.

Nobis and Caveness headed this week's All-America check list in the Southwest Conference. They each were credited with a dozen tackles as Texas edged Rice 6-3 and Arkansas downed Wichita 17-0.

LHS Reserves Roll

The Lincoln High reserves had seven men in the scoring column as they defeated the Grand Island reserves, 28-13 Tuesday night.

Lincoln High—Heller, 5-yd. pass from Krue; Houston, 10-yd. run; Rife, 45-yd. run; Jacoby, 7-yd. run PAT—Acquire (2).

Colborn, Jacoby.

Grand Island—Myer (2) 20-yd. run, 5-yd. run PAT—Lamp.

CYCLONES UNDER TREATMENT

Two members of the Iowa State football squad are shown here with the team physician in the university hospital, after suspected food poisoning put 13 players and two coaches on the sick list. All were released and attended a practice session Tuesday afternoon.

Pius X, LSE Game To Stress Offense

... IN WEDNESDAY MEETING

By DON FORSYTHE Prep Sports Writer

The emphasis is expected to be on the offense as Pius X and Southeast kick off a long week of prep football action at Seacrest Field Wednesday night.

The two teams have been scoring at a three touchdowns a game pace and each has rolled past the 30 mark on the scoreboard on three occasions.

The Thunderbolts need this one to have a chance at a .500 season as they now stand at 3-4 with two games remaining.

Southeast has changed direction after a slow start and now has a 5-2 mark with a five-game winning streak.

The spotlight is on Omaha Friday night when top-ranked Northeast puts its 19-game winning streak on the line against Metropolitan League leader Omaha Benson.

The week's forecast:

Pius X v. Southeast at Seacrest Field (Wed.) — Thunderbolts have chance for an upset, but Knights have momentum of five-game streak going for them.

Northeast at Omaha Benson (Fri.) — Bunnies present a major problem for Northeast, but Rockets want this one and can get it.

Lincoln High at Bellevue (Fri.) — Despite being riddled by injuries the Links have enough left to get past the Chieftains.

Crete at Falls City (Wed.) — Falls City improved, but not enough to stop Cardinals.

Beatrice at Fremont (Wed.) — Fremont gets narrow edge in this one.

Other top games:

11-MAN Tuesday

Arnold at Callaway, Shickley at Chester, Clarks at Clay Center, Davenport at Lawrence.

Wednesday

Fullerton at Albion, Alma at Red Cloud, Beaver City at Arapahoe, Plattview at Arlington, Blair at Ashland, Auburn at Syracuse, Aurora at Seward, Norfolk Burns at Battle Creek, Bayard at Kimball, Cambridge at Bertrand, Blue Hill at Dresher, Branning at Friend.

Cedar Rapids at Silver Creek, Minden at Central City, Exciter at Ceresco, Clarkston at Laurel, Curtis at Lexington, East Butler at Milford, Elkhorn at Gettysburg, Fairfield at Roseland, Fairmont at Harvard, Franklin at Oxford, Fremont Reagan at Louisville.

Geneva at Stratton, Genoa at Stramburg, Goldenburg at Okallala, Imperial at Grant, Nelson at Guide Rock, Hebron at Superior, Henderson at Seward, Concordia, Sidney at McCook, Concordia at McCook.

Former All-America Princeton Tackle Dies

Scranton, Pa. (AP) — James Cooney, All-America tackle for Princeton in 1904, died Monday night in Scranton State Hospital. He was 80.

Cooney, who was captain of the Princeton team, had operated a newsstand until he was taken to a hospital three weeks ago. Before that he was president of a coal company and associated with a sales firm in Ithaca, N.Y.

Now is the time for this great Canadian to come to the aid of your party!

# Flood, Family Move In

## ... AFTER ALLEGED VIOLENCE THREAT

Martinez, Calif. (P)—World Series star Curtis Flood took token possession Tuesday of a rented \$35,000 house in nearby Alamo, despite an alleged shotgun threat to stop "any Negroes from moving in."

There was no trouble as the St. Louis Cardinals centerfielder, his pregnant wife, Beverly; their 4 children, 11 deputy sheriffs and 50 news-men advanced on the house.

A locksmith changed the locks which George Finn, one of the fighting Finn twins of Southern California litigation fame, allegedly changed the day before to keep the Floods out.

Seven white neighbors led by Mrs. Joseph Cone told the Floods they were happy to have a baseball star and his family in the neighborhood. Some had telephoned the Floods earlier offering help and baby sitting services.

The Floods, after taking possession of their home, chatted with neighbors but didn't stay the night. The gas and electricity hadn't been turned on and their furniture still was en route.

"We'll be in a couple of days," Flood said.

As for George Finn, Robert

# Kubek Raps NY Press

Wausau, Wis. (P)—Tony Kubek says the New York press was partially to blame for the downfall of Yogi Berra, fired as manager of the Yankees the day after the World Series.

The Yankee shortstop who had to sit out the Series due to a wrist injury, charged in an interview at his off-season home here that "numerous incidents, like the one with Phil Linz and the harmonica, were blown way out of proportion."

"Finally, I think that the Yanks' front office decided it would be better for the club to remove Berra as manager," Kubek added.

Linz, Kubek's replacement in the Series, was fined by Berra for playing a harmonica on the Yankee bus en route to the hotel after a losing game at a time when the club was struggling to get back into the race.

Kubek denied that he and

# Volleyball Clinic For Gals Slated Monday At LSE

A volleyball clinic for housewives and businesswomen who are interested in learning or improving their skills in the game will be held at 7:30 p.m. Monday at the Lincoln Southeast girls gym.

The clinic will be conducted by the Nebraska Wesleyan women's physical education department. The City Recreation Department has asked that any gals interested in playing on a team appear at the clinic.

Any one interested in playing in a Tuesday night volleyball league are invited to appear at the Southeast gym at 7 p.m. Tuesday night.

# Buckeyes Place Dunkel Ratings

## ... HUSKERS FIFTH

By DICK DUNKEL

Ohio State continues to lead the college football rating race by a wide margin, according to the Dunkel Index.

The Buckeyes (5-0) beat Wisconsin, 28-3, last Saturday to bring their average scoring superiority to 19.0 points per game over opposition indexed at 91.5 for the top total of 110.5.

Other leaders, in order, their records, and scores of last week:

Alabama (6-0), 17-14 over Florida; Notre Dame (5-0), 28-6 over Stanford; Florida (4-1), lost to Alabama; Nebraska (6-0), 21-3 over Colorado; Louisiana State (4-0-1), tied Tennessee, 3-3; Arkansas (6-0), 17-0 over Wichita; Michigan (4-1), 19-12 over Minnesota; Texas (5-1), 6-3 over Rice; So. California (4-2), 26-21 over California.

Leading teams have ranked themselves as follows:

**MAJORS**

Ohio State	110.5	anderbilt	83.0
Alabama	106.7	So. Methodist	81.1
Notre Dame	106.2	Miami	81.0
Florida	104.3	Colorado	81.0
Nebraska	102.8	Wake Forest	80.9
Louisiana St.	102.8	Wyoming	80.7
Arkansas	101.9	Va. Tech	79.7
Michigan	101.5	S. Mississippi	79.2
Texas	100.4	New Mexico	78.0

## DLENCE THREAT

ondon, Flood's attorney, said:

"I hear he's in Nevada." Condon did not elaborate. There had been vague reports that Finn was in the neighborhood. He lives on the San Francisco Peninsula, 50 miles away across San Francisco bay.

Flood obtained a restraining order Monday against Finn allowing Flood to move into the home when he had passed from an agen for Mrs. Constance A. Oliver of Zephir Cove, Nev. Finn signed the lease after obtaining power of attorney from Mrs. Oliver, but allegedly exploded after he learned Flood is a Negro and declared:

"No niggers are going to move in here. We will shoot them first."

Flood's suit asserted Finn and another man, armed with hotguns, parked his car across the home driveway and took guard.

The 25-year-old athlete said he leased the house for \$290 month for a year.

### Weasels Pull Switch

Weasels change color from brown to white each fall due to moult and the coat is not a change of the color of the existing fur. It is this moult that creates the sought after ermine.

# Entirely new Rambler Ambassador

## 65's most spectacular change... in size, style, spirit

Spectacular new size and room

Sensible easy handling

Longer wheelbase, wider, roomier, more trunk space, bigger in every dimension. Yet it's still quick, sharp, maneuverable in the Rambler tradition.

Spectacular new power and sportiness

Sensible operating economy

New engine choices! Big V-8s up to 327 cu. in., optional. All-new 155-hp Torque Command 232, the 6 that comes on like an 8, standard. Sporty options: bucket seats, armrest, console, manual or automatic floor shift—you name it!

Only Rambler has all these Extra-Value Features at no extra cost: Weather Eye Heating • Advanced Unit Construction • Deep-Dip rustproofing • Ceramic-Armored exhaust system • Lustre-Gard Acrylic Enamel, many others.

# NU Still Commands In 5 Of 6 Divisions

## ... BUT SOONERS CHALLENGING

Kansas City, Mo.—There has been somewhat of a "return to normalcy" after the "new deal" starting in the Big Eight Conference, team statistics released from the Conference's Service Bureau show.

Ever-strong Oklahoma is now challenging Nebraska in total offense. Rushing-minded Kansas is pulling up on the leading Cornhuskers. And Missouri, noted the past few years for its strong defense, has taken No. 2 spots in rushing defense and total defense in an effort to make a run at the leading Nebraskans.

However, Nebraska still holds comfortable leads in five of the six divisions—rushing offense, passing offense, total offense, rushing defense, and total defense—and has moved into a close second in the only category escaping its grasp, passing defense, as it makes a bid to become the only team in the conference ever to sweep all six titles.

Oklahoma State is still stubbornly holding onto the pass-defense leadership, allowing an average of 59.4 yards a game through the air. Nebraska has surrendered an average of 69.5 in one more game. Thus, the Cowboy advantage is now 120 yards.

Kansas marched for 259 ground yards against Oklahoma State, while Colorado held Nebraska to its lowest rushing total of the year, 137, enabling Kansas to move within 44.6 yards of Nebraska's 256.7 per game. Meanwhile, Oklahoma was exploding for 349, its best of the season, against Kansas State, to cut Nebraska's lead to an average of 68, 374.5-306.8.

Nebraska did build its rushing defense lead, though, posting the conference's best rushing defense effort since the Cornhuskers held South Dakota State to a minus 17 in the opener last year, when they held Colorado to a minus three. Nebraska leads, 63.7 to 130.0 for Missouri.

The story was the same in total defense as the Cornhuskers' "Black Shirts" held Colorado to 51 total yards—in the past two games, Nebraska has allowed only 87 total yards—dropping its average in total defense to 133, compared with Missouri's 211.7.

The Cornhuskers continue to hold a commanding lead in points scored with 192, while Kansas is a distant second with 98. The race in fewest points allowed is closer, however, with Missouri's 44 total only seven behind Nebraska's 37.

# Sooner Grisham Leaps To Second In Rushing

... SOLICH LISTED FOURTH

Kansas City, Mo. — Oklahoma's Jim Grisham, with his best back-to-back effort of the year — 104 and 92 yards — has rammed his way into second place in the individual Big Eight Conference rushing standings after not even being ranked among the top 15 two weeks ago.

Actually, Grisham's rise to the challenge of Kansas' Gale Sayers for the leadership has been expected all year, for it was Grisham who finished second to Sayers last year. However, Grisham spent the first month of the season fighting injuries. He has now run for 320 yards, compared with Sayers' 476 in one more game.

Last week's second-place holder, Walt Garrison, of Oklahoma State, slipped to third when he was held to a net of 32 against Kansas. Three yards behind him is the smallest fullback in the league, Frank Solich of Nebraska, with 296.

Perhaps an even greater reason for Grisham's rise to the near top in rushing than his full recovery from hurts has been the do-everything performance of his running mate, Lance Rentzel.

Rentzel, who is currently ranked sixth in rushing with 274 yards and a 5.3 average, appears among the leaders in every individual statistical category except passing.

—KLIMEK SPARKS WIN—

## Loup City Fullback Week's Top Player

By DON FORSYTHE

Prep Sports Writer  
Loup City's Ron Klimek, who sparked a 14-13 upset of Ord with strong running from a fullback spot and excellent linebacking, has earned "Player of the Week" honors. The 172-pound senior gave the Red Raiders the edge in their traditional backyard battle with the highly-regarded Ord club.

He blasted across for an extra point in the first quarter and scored a touchdown in the second quarter to help the Loup City club take a 14-0 lead.

Loup City defensive charts showed him as being in on over 20 tackles on defense.

Ron and the following performers will be recognized for their fine play last week:  
Jim Schmitt, Elgin St. Boniface—Averaged 10.5 yards on 12 carries, caught two passes for 73 yards in 33-13 win over Wolbach.  
Jerry Schultz, Grand Island Northwest—Ran for 185 yards, caught four passes for 66 yards to lead Vikings to first football win, 32-7 over Cedar Rapids.  
Matt Shoney, Clarks—Sophomore quarterback completed seven passes, two for touchdowns, and turned in good defensive effort in 21-6 win over Palmer.

Dan Hartman, Kearney—Hard-hitting fullback wrecked Scottsbluff defense in 25-7 win over Bearcats.

Neil Butler, Thedford—Scored on runs of 70, 4 and 7 yards to lead to 26-16 homecoming win over Mullen.

Pete Snyder, Imperial—Ran for 286 yards in 22 carries in 39-20 win over Trenton.

Alan Burr, Talmage—Guard threw key block on 65-yard touchdown play, led defensive effort in 7-6 win over Nebraska City Lourdes Central.

Ron Lange, Lebron—Gained 135 yards as Bears knocked off York, 14-6.

Dennis Ferry, Ceresco—Scored three times, gained 144 yards in 25-7 win over Utica.

yards playing behind the now-sidelined Fred Duda.

Other individual leaders in the Big Eight are Sayers in punt returns (7 for 111, a 15.9 average) and Tom Vaughn of Iowa State in kickoff returns (10 for 279, a 27.9 average).

## Terry, Bauer Try Nebr. Luck

A couple of major league baseball figures have been hunting in south central Nebraska.

Hank Bauer, manager of the Baltimore Orioles, hunted pheasants in the Nelson area. He stayed with Russ Snyder, Baltimore outfielder, in Nelson.

Ralph Terry, former New York Yankee star who now is with the Cleveland Indians, spent the weekend with Harry Obitz at Red Cloud and reported getting his limit on quail, though he had a tough time finding pheasants.

## Assistant Manager Transferred To York

Monte Madsen, assistant fisheries manager for the State Game Commission's district 5, has been transferred to York.

Madsen, who has been with the commission two and one half years, was transferred to York because it is centrally located for his work in the western half of the district.

## Lincolnite Nominated For Silver Anniversary Award

New York City—Adna A. Dobson of Lincoln is one of 69 men cited by their alma maters as candidates for this year's Sports Illustrated Silver Anniversary All-America Awards.

The men, who played collegiate football as seniors in the 1939 season, are nominated on the basis of their success in life in the 25 years since their collegiate gridiron days.

Dobson, nominated by the University of Nebraska, is vice president of Dobson Brothers Construction Company, chairman of the board of Mid-Continent Laboratories, a member of the board of

Midwest Life Insurance Company and a member of the board of the First National Bank.

The Lincoln executive was a guard on coach Biff Jones' 1939 team that finished with a 7-1-1 record. He won three football letters and one in track.

The final selection of the annual roster is made by a panel of distinguished citizens and the announcement of the 25 winners will be made by the magazine in late November.

## Rookie Replace 2 St. Louis Vets

St. Louis (AP)—Two St. Louis Cardinals veterans—John David Crow and Jimmy Hill—probably will be replaced by rookies for Sunday's National Football League game in New York against the Giants.

Coach Wally Lemm said Tuesday back Willis Crenshaw will start in place of Crow if Joe Childress, out with an injury last week, is ready to play. If Childress cannot play, Crow and Crenshaw will start.

Jim Burson will open for Hill at the right cornerback position.

## Fishing Year Round

# 6-Year Peru College Plan Presented

Peru (UPI) — A 17-project six-year program of development of the physical facilities of Peru State College has been presented by President Neal S. Gomon to the building and grounds committee

of the Board of Education of State Normal Schools. Action on the program is expected at the next meeting of the board at Kearney, Nov. 1. If the \$3,807,872 "package" is approved, a request for \$1,628,522 will be made to the 1965 Legislature for building levy funds to implement the 1965-67 phase of the program.

Recommended projects for 1967-69 are: modernize the campus fire detection systems to meet standards required by the state fire marshal, \$15,180; renovate and remodel the administration building, \$172,500; replace existing campus electrical system \$168,000; modernize the heating plant, \$151,250; install dressing rooms,

storage and additional seating at Oak Bowl stadium, \$77,500; construct a new campus K-12 laboratory school, \$652,000; remodel and renovate the college auditorium, \$183,792; remodel and renovate front portion of gymnasium, \$58,300; acquire sites for additional dormitories and housing units, \$85,000; and develop athletic and physical education outdoor areas, \$65,000.

Projects recommended for 1965-69 are: install central air conditioning system for classroom and dormitory buildings, \$360,800; construct a women's gymnasium, \$465,700; replace the student health center \$125,000; construct an addition to the college library, \$300,000; and remodel and renovate the present campus laboratory school for college classroom use, \$435,850.

The final phase of the program recommends an addition to the Science Hall, \$250,000 and expansion of the heating and air conditioning systems, \$242,000 during the 1969-71 biennium.

Long-range plans for housing students recognize a need for additional dormitory space and an addition to the food services facility. Enrollment projections indicate the need for a 150-bed women's dormitory and a 250-bed men's dormitory, estimated at a total cost of \$1.6 million and an addition to the student center estimated at \$400,000 before 1969. Housing and food service facilities are financed by revenue bonds with no tax money involved.

**VOTE FOR School Amendment 300 ELECT COMMISSIONER OF EDUCATION**

## ALLIANCE JHS STUDENTS PICK LBJ IN VOTE

Alliance (UPI)—Students of the junior high school here chose President Johnson over Senator Goldwater, 191-159, in a mock election Tuesday.

Mrs. Don Lichty, American history teacher, presided. Sample ballots were obtained from the county clerk's office.

Of the 456 students in the school, 376 registered. They chose Gov. Frank Morrison, Democrat, over Dwight Burney, the Republican nominee, 215-128.

Other results included: Sen. Roman Hruska, Republican, over Raymond Arndt, Democrat, 200-142, for senator; Charles Thone, Republican, beat Philip Sorensen, Democrat, 174-168, for lieutenant governor; William Colwell, Democrat, beat David Martin, Republican, 191-150, for 3rd District Congressman.

## Douglas County Board Chairman Favors Swenson

Omaha (UPI)—Douglas County Board Chairman J. J. Cavanaugh Monday night gave his full endorsement to Richard Swenson, Democratic candidate for Congress, and explained why he had switched his support from Republican incumbent Rep. Glenn Cunningham.

Speaking before a South Omaha Democratic rally, Cavanaugh said he felt in the past Cunningham was "a South Omaha man." But, he added, "unity can go just so far."

"We need a man who can bring jobs and job opportunities to our area," he said. "Our present congressman has not done this."

## Explosion Kills Soviets

Aden (AP)—Yemeni royalists blew up a bridge on the San'a-Hodeida highway, killing five Russians, a mong them a woman, Aden Radio reported. Quoting reliable reports, the radio said the Russians were traveling in a car.

## Farmers Union Issues Warning Against No. 6

Omaha (UPI)—The Farmers Union of Nebraska has issued a warning to voters concerning the proposed constitutional amendment No. 6 which it said would authorize the passage of special privilege legislation to permit higher interest rates on installment sales and loans.

State President Elton L. Berck said the organization is on record in opposition to passage of the measure. He said it would weaken and destroy the only safeguards installment purchasers now have against "outrageous and confiscatory" interest rates.

"We urge voters not to swallow the propaganda that they will have to pay cash for all purchases if the amendment fails," Berck said.

"The special privilege, high interest folks are doing alright (SIC) now or they wouldn't be selling everything from snow tires to color TV on a 'no money down, first payment in February basis,'"

## Cole Laments 'Lack Of Board Harmony'

Holdrege — Railway Commission candidate Ralph Cole said Wednesday "it is lamentable that lack of harmony among members of the commission should interfere with the proper and effective handling of business by this powerful regulatory body."

Reorganization of the commission into a five-member body, elected by districts, was "definitely a step forward," Cole said.

Cole is a candidate in the Fifth District.

## Nov. 16 Start Set For Grand Jury

Omaha (AP)—District Judge Paul J. Garretto has announced that Omaha's first grand jury investigation in 10 years will begin Nov. 16. The jury was ordered by district judges after Chicago investor John B. Coleman said certain city officials had agreed to receive payments in connection with a rezoning project.
